#### Report on review of interim condensed consolidated financial statements

To the Shareholders

Credicorp Ltd. and subsidiaries

May 27, 2022

We have reviewed the accompanying interim condensed consolidated statement of financial position of **Credicorp Ltd. and subsidiaries** (the Company) as of March 31, 2022 and the related interim condensed consolidated statements of income, comprehensive income, changes in net equity and cash flows for the three-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, 'Interim financial reporting'. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

## Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, 'Interim financial reporting'.

#### 1 OPERATIONS

**Credicorp Ltd.** (hereinafter "Credicorp") is a limited liability company incorporated in Bermuda in 1995 to act as a holding company and according to Bermuda's economic substance regulation, Credicorp Ltd. as an independent legal entity, is considered a "Pure Equity Holding Entity" (PEHE). Credicorp's activity is to maintain equity interests and receive passive income such as dividends, capital gains and other income from investments in securities.

In order to keep Credicorp's structure and organization fully aligned with the new legislation on economic substance approved by the Government of Bermuda on January 11, 2019, as of October 29, 2020, the decisions of the Credicorp Board of Directors will be limited to issues related to Credicorp's strategy, objectives and goals, main action plans and policies, risk control and management, annual budgets, business plans and control of their implementation, supervision of the main expenses, investments, acquisitions and disposals, among other "passive" decisions related to Credicorp. The authority to make decisions applicable to Credicorp's subsidiaries, such as the adoption of relevant strategic or management decisions, the assumption of expenses for the benefit of its affiliates, the coordination of group activities, and the granting of credit facilities in favor of its affiliates, it has been transferred to Grupo Crédito S.A., a subsidiary of Credicorp.

Credicorp, through its banking and non-banking subsidiaries and its associate Entidad Prestadora de Salud (EPS), offers a wide range of financial, insurance and health services and products, mainly throughout Peru and in other countries (see Note 3 (b)). Its main subsidiary is Banco de Crédito del Perú (hereinafter "BCP" or the "Bank"), a multiple bank incorporated in Peru.

Credicorp's legal address is Clarendon House 2 Church Street Hamilton, Bermuda; likewise, the main offices from where Credicorp's businesses are managed are located at Calle Centenario N° 156, La Molina, Lima, Peru.

At a Credicorp Board of Directors meeting, held on December 19, 2019, the Corporate Policy for the Prevention of Corruption and Bribery was approved. This document specifies that neither Credicorp nor any of its subsidiaries can make contributions or deliver any benefit to political organizations or their members, under any modality, directly or indirectly. Management confirms that during the 2022 and during the 2021, none of these contributions have been made.

The consolidated financial statements as of December 31, 2021 and for the year then ended were approved by the Board of Directors on February 24, 2022. The interim condensed consolidated financial statements as of March 31, 2022 and for the three-month periods ended March 31, 2022 were approved by the Management on May 27, 2022 and will be submitted for their final approval by the Board of Directors; in Management's opinion, these will be approved without modifications.

Credicorp is listed on the Lima and New York Stock Exchanges.

#### 2 SIGNIFICANT TRANSACTIONS

- a) Main acquisitions, incorporations and mergers
  - i) Acquisition of Wally POS S.A.C. -

On December 17, 2019, Credicorp through its subsidiary Grupo Credito, acquired 19.30% of the minority participation of the company Wally S.A.C, equivalent to S/ 243,670.7, and finally, on January 11, 2022, it acquired 70.60%, equivalent to S/ 891,355.0, thus obtaining 89.90% of the company.

This transaction has not generated a significant impact on the Group's interim condensed consolidated financial statements.

ii) Merger by absorption between ASB Bank Corp. and Atlantic Security Bank -

At the General Shareholders' Meeting - Extraordinary Meeting held on November 27, 2020, the shareholders of ASB Bank Corp. approved the legal merger of Atlantic Security Bank. This operation was authorized by the Superintendence of Banks of Panama through Resolution SBP-033-2021 of April 9, 2021. Also, on August 2, 2021, ASB Bank Corp. (absorbing entity) acquired all the assets, liabilities, rights and obligations of Atlantic Security Bank (absorbed entity).

This transaction has not generated a significant impact on the Group's interim condensed consolidated financial statements.

iii) Merger by absorption between Ultralat Capital Markets, LLC and Credicorp Capital Securities, Inc. -

On February 1, 2021, we finalized the merger between Credicorp Capital Securities, Inc. and Ultralat Capital Markets, LLC, which resulted in a new company named Credicorp Capital LLC. Credicorp Capital LLC is a broker-dealer registered with the Financial Industry Regulatory Authority - FINRA and the Securities and Exchange Commission - SEC. Credicorp Capital LLC is owned by Credicorp Capital Limited, which is wholly owned by Credicorp Ltd. Credicorp Capital LLC has an affiliate investment adviser, Credicorp Capital Advisors LLC. They share the same board of directors and ownership.

This operation will not have an impact on the interim condensed consolidated financial statements of Credicorp Ltd. and Subsidiaries.

b) Post pandemic economic recovery -

In 2022, the global economy recovered as the vaccination process gained pace, but challenges related to new COVID-19 outbreaks and inflation arose. High energy prices, supply chain disruptions and pent-up demand, lead prices higher during the second half of the year and Central Banks, especially those in Emerging Economies, began to reduce its accommodative policy stance through interest rate hikes.

However, compared to other COVID-19 outbursts, given the positive impact of vaccinations, hospital admissions and deaths related to the virus have not risen as fast as before, except for China which is suffering its worst outbreak since the beginning of the pandemic. The progress in the vaccination process has allowed the economic recovery to continue in the countries in which the Group mainly operates.

Below we present the main macroeconomic indicators of the countries where Credicorp operates:

#### i) Macroeconomic Indicators of Perú -

	At March 31, 2022	At December 31, 2021
GDP % (*)	3.8	13.3
Inflation %	6.8	6.4
Fiscal Balance GDP %	1.6	2.6
Exchange rate, end of period	3.698	3.987

#### (\*) Gross domestic product.

Inflation has been an important global widespread factor in 2021, that has also affected the Peruvian economy, due to higher international prices of fuels and grains driven by global supply shocks, higher prices of foods with imported content, and the currency depreciation. In response, the Central Bank raised its policy rate in nine opportunities since August 2021.

#### ii) Macroeconomic indicators in Bolivia, Colombia, Chile and Panamá -

At March 31, 2022								
	Bolivia	Colombia	Chile	Panama				
GDP % (*)	3.5	5.5	1.5	7.5				
Inflation %	0.8	8.5	9.4	4.0 (**)				
Exchange rate, end of period	6.96	3,748.15	787	Not Applicable				

- (\*) It is the expectation of economic growth in the first quarter of 2022.
- (\*\*) It is the expectation mentioned by the International Monetary Fund (IMF).

In 2022, Bolivia's GDP is expected to grow 3.5 percent amid high oil and metal prices.

Regarding inflation, it rose slightly to 0.8 percent in March but is expected to end the year in 4.2 percent according to the IMF (International Monetary Fund). In recent years, the Bolivia's managed foreign exchange system has continued to keep inflation under control, in contrast with other regional economies which are witnessing marked inflation increases in recent months.

In 2022, Colombia, GDP is expected to grow around 5.5 percent as the impulse of private consumption persists as the economy reopens further, while investment and exports would catch up to favorable external conditions related mainly to international oil prices increasing to levels not seen since 2014.

Inflation has steadily accelerated since March 2021 and reached 8.5 percent in March 2022, its highest level in more than two decades.

In 2022, Chile, even though the monthly economic activity index (IMACEC, Spanish initials) grew 7.2 percent y/y (year to year) in March, the outlook continues to have a downward bias amid tighter financial conditions, weak investment prospects, political uncertainty, and a complex international backdrop. The IMF estimates GDP growth of 1.5 percent in 2022.

Inflation accelerated in March 2022 to 9.4 percent y/y, its highest rate in 14 years. Price pressures were evident in all components, including tradable and non-tradable goods and services.

In 2022, Panama, the IMF estimates that the economy will grow 7.5 percent, the highest rate in the region. Thus, according to the government, it is highly probable it will recover soon prepandemic levels as activities keep returning to normality, the population is increasingly vaccinated, and copper production and large infrastructure projects continue.

The IMF estimates inflation will increase from 2.6% in 2021 to 4.0% in 2022, highest since 2012.

#### 3 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of Credicorp's interim condensed consolidated financial statements are set out below:

a) Basis of presentation, use of estimates and changes in accounting policies -

The accompanying interim condensed consolidated financial statements as of March 31, 2022, and for the three-month periods ended March 31, 2022, have been prepared in accordance with IAS 34 "Interim Financial Reporting".

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the annual consolidated audited financial statements for the year ended December 31, 2021 (henceforth "2021 Annual consolidated financial statements"), date February 24, 2022.

The interim condensed consolidated financial statements have been prepared following the historical cost criteria, except for investments at fair value through profit or loss, investments at fair value through other comprehensive income, financial assets designated at fair value through profit or loss, derivative financial instruments, and financial liabilities at fair value through profit or loss; which have been measured at fair value.

The interim condensed consolidated financial statements are presented in Soles (S/), which is the functional currency of the Group, and all values are rounded to thousands of soles, except when otherwise indicated.

The preparation of the interim condensed consolidated financial statements in accordance with International Financial Reporting Standards (henceforth "IFRS") as issued by the International Accounting Standards Board (IASB), requires Management to make estimations and assumptions that affect the reported amounts of assets, liabilities, income and expenses and the disclosure of significant events in notes to the interim condensed consolidated financial statements.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the current circumstances. The final results could differ from said estimates; however, the Management expects that the variations, if any, will not have a material impact on the interim condensed consolidated financial statements.

The most significant estimates included in the accompanying interim condensed consolidated financial statements are related to the calculation of the allowance of the expected credit loss on loan portfolio, the valuation of investments, the technical reserves for insurance claims and premiums, the impairment of goodwill, the expected credit loss for investments at fair value through other comprehensive income and investments at amortized cost, the valuation of share-based payment plans and the valuation of derivative financial instruments.

Furthermore, other estimates exist, such as the estimated useful life of intangible assets, property, furniture and equipment and the deferred income tax assets and liabilities.

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2021, except for the adoption of new standards effective as of January 1, 2022, as described below:

(i) Amendment of IAS16 - Property, Plant and Equipment: Product prior to use -

In May 2020, the Board of International Accounting Standards issued the Property, Plant and Equipment rule: Product prior to foreseen use, which prohibits companies from deducting from the cost of an article of Property, Plant and Equipment any product of the sale of articles produced while said asset is transported to the location and the conditions are adequate for it to operate in the manner foreseen by the administration. Instead, an entity must recognize the product of the sale of said articles and the costs of production of the same in the profit and loss statement. These amendments go into effect on January 1, 2022 and must be applied retrospectively to articles of property, plant and equipment that are made available for use on or after the beginning with the first period that the entity applied the amendment for the first time. The Group is currently assessing the impact of this may have on the consolidated financial statements.

(ii) Amendments to IFRS 3 - Reference to the conceptual Framework -

Minor amendments were made to IFRS 3 Business combinations to update references to the Conceptual Framework for Financial Information and add an exception to recognize liabilities and contingent liabilities within the scope of IAS37 Provisions, Contingent Liabilities and the Interpretation IFRIC 21 Levies. The amendments also confirm that contingent assessment should not be recognized on the date of acquisition. The amendment will be in effect for annual periods reported on or after January 1, 2022. The Group is currently assessing the impact that this amendment may have on the consolidated financial statements.

(iii) Onerous Contracts - Cost of complying with a contract - Amendments to IAS37 -

In May 2020, the Board of International Standards for Accounting issued amendments to IAS 37 to specify which cost an entity must include when assessing if a contract is onerous or generates losses. The amendment to IAS37 clarifies that the direct costs of complying with a contract include both the incremental costs of complying with the contract and the assignment of other costs directly required to comply with the contracts. Prior to recognizing a separate provision for the onerous contract, the entity will recognize any loss for impairment that occurred relative to the assets used to comply with the contract. The Amendment is effective for the annual periods reported begin inning on or after January 1, 2022. - 66 - The Company will apply this amendment to contracts that have yet to comply with all their obligations by the beginning of the annual period reported, which will constitute the first time that said amendments are applied. The Group is currently assessing the impact that this amendment may have on its consolidated financial statements.

(iv) Annual improvements to the IFRS Cycle 2018 - 2020 - As part of its annual improvements 2018-2020 to the standard process of IFRS, in May 2020, the Board for International Accounting Standards issued the following amendments: - IFRS Financial Instruments clarifies that commissions must be included in the test of 10.0 percent for derecognition of financial liabilities. - IFRS 16 Leasing - amendment to the illustrative example 13 to eliminate the example of lessor payment related to improvements in the object of leasing to eliminate any confusion regarding the treatment of leasing incentives. - IFRS 1 First-time adoption of international standards of financial information - permits entities that have measured their assets and liabilities at the value of registered books in their headquarters' books to also measure any difference of accumulated conversion by using the amounts reported by headquarters. This amendment will also apply to associates and joint ventures that have taken the same expectation to IFRS 1. - IAS41 Agriculture - elimination of the requirement that entities exclude cash flows of taxes when it measures the reasonable value according to IAS41. This amendment's objective is to align with the standard's requirement to discount cash flows on an aftertax basis. The amendments will be effective for reported annual periods beginning on or after January 1, 2022 with permissible anticipated adoption. The Company will apply amendments related to financial liabilities. Leasing, which will be applied at or after the beginning of the annual reported period in which the entity first applied amendments. The Group is currently assessing the impact that this amendment can have on consolidated financial statements.

The adoption of the modification did not have significant effects on the consolidated financial statements of the Group.

#### b) Basis of consolidation -

The interim condensed consolidated financial statements of the Group comprise the condensed financial statements of Credicorp and subsidiaries for all the years presented. The method adopted by the Group to consolidate its subsidiaries is described in Note 3(b) of the 2021 Annual Consolidated Financial Statements.

c) International Financial Reporting Standards issued but not yet effective -

The Group decided not to early adopt the following standards and interpretations that were issued but are not effective as of March 31, 2022:

(i) Amendment to IAS1: Classification of Liabilities as Current or Not Current -

The amendments to IAS1 Presentation of Financial Statements clarifies that liabilities that classify as current or non-current, depending on the rights that exist at the end of the period reported. The classification is not affected by the entity's expectations or events subsequent to the date of presentation (for example, the reception of a dispensation or breach of agreement). The amendments also clarify what IAS1 means when it refers to "liquidating" a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered managements' intentions to determine the classification and some liabilities may become equity. Amendments must be applied retroactively in accordance with the normal requirement of IAS8 Accounting Policies, Changes in Accounting Estimates and Errors

In May 2020, IASB issued a Proposed Standard to postpone the date that amendments go into effect until January 2023. Amendments are effective for annual reported periods on or after January 1, 2023 and must be applied retrospectively. The Group is currently assessing the impact that this amendment may have on the consolidated financial statements.

(ii) Disclosure of Accounting Policies - Amendments to IAS 1 and the Practice Statement 2 -

Originally, the IAS stipulated that "significant" accounting policies must be divulged. With this amendment, there is a specification that disclosure must be for "material" accounting policies. This amendment incorporates the definition of what is considered "information on material accounting policies" and explains how to identify this type of information. Additionally, the amendment clarifies that it is not necessary to divulge information on immaterial accounting policies and if the same is divulged, it should not create confusion about what truly constitutes important accounting information. Consistently, Practice Statement 2 was also amended to express judgements on materiality to provide a guide to apply the concept of materiality in accounting policy disclosures. These amendments will go into effect for the annual period reported beginning on or before January 1, 2023 and anticipated adoption is permitted. The Group is currently assessing the impact that this amendment will have on its consolidated financial statements.

(iii) Amendments to IAS 8 - Definition of accounting estimates -

This amendment clarifies how to distinguish changes in accounting policies from changes in accounting estimates. The distinction is important when defining accounting treatment given that changes in accounting estimates recognize future transactions and events prospectively while changes in accounting policies generally apply to past transactions and events retroactively, as is the case with the current period. Amendments will be in effect for the annual periods reported beginning on or after January 1, 2023 and anticipated adoption is permitted.

The Group is currently assessing the impact that this amendment will have on its consolidated financial statements.

(iv) Amendments to IAS 12, Deferred tax related to assets and liabilities that arise from a single transaction -

These amendments indicate that deferred taxes that arise from a single transaction should be recognized if, in their initial recognition, temporary taxable differences and deductibles for the same value arise. This will generally apply to transactions such as leasing (for lessees) and obligation to dismantle or remediate in those situations that will require recognition of deferred tax assets and liabilities. These amendments must apply to transactions that occur on or after the beginning of the comparative period presented. Additionally, it is necessary to recognize deferred tax assets (to the extent that it is probable that they will be utilized) and deferred tax liabilities at the beginning of the first comparative period for all deductible or taxable temporary differences associated with: - Assets for rights of use and leasing liabilities, and - Liabilities for dismantling, restoration and similar and the corresponding contributions are recognized as part of the cost of related assets. - 68 - The accumulated effect of these adjustments is recognized in accumulated results or through another component of equity as applicable. Previously, IAS 12 stipulated no particular accounting treatment for the tax effects of leasing that are recognized in the balance and for similar transactions; as such, different approaches are considered acceptable. The entities that are already recognizing deferred taxes on these transactions will not see impacts on their financial statements. Amendments will be in effect for the annual reported periods beginning or after January 1, 2023 and anticipated adoption is permitted. The Group is currently assessing the impact that this amendment may have on their consolidated financial statements.

(v) IFRS 17 "Insurance Contracts" -

IFRS 17 was issued in May 2017 in replacement of IFRS 4 "Insurance Contracts". This standard requires a current measurement model, where estimate is remeasured in each reporting period. The contracts are measured using the building blocks of:

- Discounted- weighted of probability cash flows
- An explicit risk adjustment, and
- A contractual service margin which represents the unearned profit of the contract recognized as income over the coverage.

IFRS 17 applies to all types of insurance contracts (life, non-life and reinsurance insurance), regardless of the type of entities that issue them, as well as certain guarantees and financial instruments with certain discretionary participation characteristics. The general objective of IFRS 17 is to provide an accounting model that is more useful and uniform for insurance entities. Unlike IFRS 4, which relies heavily on the application of existing / local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, which covers all relevant accounting aspects.

The standard permits a choice between recognizing the changes in discount rates, either in the statement of income or directly in other comprehensive income. The choice probably reflects how insurers record their financial assets according to IFRS 9.

An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

There is a modification of the general measurement model denominated "Variable commissions method" for certain contracts of insurers with life insurance in which the insured share the yields from the underlying elements. Upon applying the variable commissions' method, the entity's participation in changes in fair value of the underlying elements is included in the contractual service margin. Therefore, it is probable that the results of the insurers that use this model will be less volatile than under the general model.

The new rules will affect the financial statements and key performance indicators of all entities that issue insurance contracts or investment contracts with discretionary participation features.

Also, its implementation will modify the recognition, measurement, presentation and disclosure of insurance contracts having a significant impact on the underlying valuation models, systems, processes, internal controls and other fundamental aspects of the insurance business.

The Group has established governance structures related to the IFRS 17 project with the Audit Committee as the highest instance. As required by the standard, currently, the entities that make up the Group are in the process of determining the impact of their application.

Initially, IFRS 17 would apply to annual periods beginning on or after January 1, 2021; however, on June 25, 2020, the IASB agreed to defer the effective date of application to annual periods beginning on or after January 1, 2023.

(vi) Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in associates and joint ventures": Sale or contribution of assets between an investor and its associate or joint venture -

The IASB made limited scope amendments to IFRS 10 and IAS 28.

The amendments clarify the accounting treatment of the sales or contribution of assets between an investor and his associates or joint venture. These amendments confirm that the accounting treatment depends on whether the non-monetary assets sold or contributed to an associate or joint venture constitutes "a business" (as defined in IFRS 3 "Business combinations").

If the non-monetary assets constitute a business, the investor will recognize the total gain or loss on the sale or contribution of assets. If the assets do not comply with the definition of "business", the investor will recognize the gain or loss only in proportion to the investor's investment in the associate or joint venture. The amendments will apply prospectively.

The IASB decided to defer the application date of this amendment until it has completed its research project on the equity method.

The Group is in the process of evaluating the impact of the application of these standards, and to date, it considers that there will be no significant impact on the interim condensed consolidated financial statements, except for IFRS 17.

Likewise, there are no other standards or amendments to standards which have not yet become effective and are expected to have a significant impact on the Group, either in the current or future periods, as well as on expected future transactions.

As of March 31, 2022 and December 31, 2021, the following entities comprise the Group (the individual or consolidated figures of their financial statements are presented in accordance with IFRS and before eliminations for consolidation purposes, except for the elimination of Credicorp's treasury shares and its related dividends):

Entity	Activity and country of incorporation	Percentage of (direct and ind		Assets		Liabilities		Equity		Net income the three-m ended Marc	onth period

a) BCP was established in 1889 and its activities are regulated by the Superintendency of Banks, Insurance and Pension Funds - Peru (the authority that regulates banking, insurance and pension funds activities in Peru, hereinafter "the SBS").

Its main subsidiary is MiBanco, Banco de la Microempresa S.A. (hereinafter "MiBanco"), a banking entity in Peru oriented towards the micro and small business sector. As of March 31, 2022, the assets, liabilities and equity of MiBanco amount to approximately S/16,979.0 million, S/14,514.9 million and S/2,464.1 million, respectively (S/16,162.6 million, S/13,799.6 million and S/2,363.0 million, respectively as of December 31, 2021). Likewise the net result of MiBanco as three-month period ended March 31, 2022 amount to S/103.0 million (S/14.1 million as three-month period ended March 31, 2021).

- b) Inversiones Credicorp Bolivia S.A. (hereinafter "ICBSA") was established in February 2013 and its objective is to make capital investments for its own account or for the account of third parties in companies and other entities providing financial services, exercising or determining the management, administration, control and representation thereof, both nationally and abroad, for which it can invest in capital markets, insurance, asset management, pension funds and other related financial and/or stock exchange products.
  - Its principal subsidiary is Banco de Crédito de Bolivia (hereinafter "BCB"), a commercial bank which operates in Bolivia. As of March 31, 2022, the assets, liabilities and equity of BCB amount to approximately S/12,737.2 million, S/11,947.8 million and S/789.4 million, respectively (S/ 13,799.80 million, S/ 12,964.80 million and S/835.0 million, respectively as of December 31, 2021). Likewise the net result of BCB as three-month period ended March 31, 2022 amount to S/20.5 million (S/11.5 million as three-month period ended March 31, 2021).
- c) Prima AFP is a private pension fund and its activities are regulated by the SBS.
- d) Tenpo SpA (hereinafter "Tenpo", formerly "Krealo SpA") was established in January 2019; and is oriented to make capital investments outside the country. On July 1, 2019, Tenpo (Krealo SpA) acquired Tenpo Technologies SpA (formerly "Tenpo SpA") and Tenpo Prepago S.A. (formerly "Multicaja Prepago S.A.").
- (ii) Pacífico Compañía de Seguros y Reaseguros S.A. is an entity regulated by the SBS and its activities comprise the contracting and management of all types of general risk and life insurance, reinsurance and property investment and financial operations. Its Subsidiaries are Crediseguro Seguros Personales, Crediseguro Seguros Generales and Pacifico Asiste and it has Pacífico Entidad Prestadora de Salud (EPS) as an associate, which are dynamic participants in the business of multiple and health insurance, respectively.
- (iii) Its most important subsidiary is ASB Bank Corp. (merged with Atlantic Security Bank on August 2021, see Note 2(a)), was established in September 9, 2020 in the Republic of Panama; its main activities are private and institutional banking services and trustee administration, mainly for BCP's Peruvian customers.
- (iv) Credicorp Capital Ltd. was formed in 2012, and its main subsidiaries are Credicorp Capital Holding Peru (owner of Credicorp Capital Perú S.A.A.), Credicorp Holding Colombia (owner of Credicorp Capital Colombia and MiBanco Banco de la Microempresa de Colombia S.A.), and Credicorp Capital Holding Chile (owner of Credicorp Capital Chile), which carry out their activities in Peru, Colombia and Chile, respectively. We present below the interim consolidated financial statements for each main subsidiary, in accordance with IFRS and before eliminations for consolidation purposes:

Entity	Percentage of interest (direct and indirect)		Assets		Liabilities		Equity		three-month period ended March 31,		
			As of March 31, 2022			As of December 31, 2021	As of March 31, 2022	As of December 31, 2021	2022	2021	
	%	%	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	
Credicorp Holding Colombia S.A.S. and Subsidiaries (a)	100.00	100.00	2,911,545	3,288,924	2,219,735	2,608,445	691,810	680,479	12,307	6,408	
Credicorp Capital Holding Chile and Subsidiaries (b)	100.00	100.00	1,185,474	1,121,622	996,874	933,173	188,600	188,449	(851)	(4,754)	
Credicorp Capital Holding Perú S.A. and Subsidiaries (c)	100.00	100.00	332,419	259,348	211,039	135,937	121,380	123,411	3,027	9,773	

a) Credicorp Holding Colombia was incorporated in Colombia on March 5, 2012, and its main purpose is the administration, management and increase of its equity through the promotion of industrial and commercial activity, through investment in other companies or legal persons.

Its main subsidiaries are Credicorp Capital Colombia S.A and Banco de la Microempresa de Colombia S.A (MiBanco Colombia). Credicorp Capital Colombia S.A. which was acquired in Colombia in the year 2012 and merged with Ultraserfinco S.A. in June 2020, this subsidiary is oriented to the activities of commission agents and securities brokers. Likewise, MiBanco Colombia (before Banco Compartir S.A.) was acquired in the year 2019 and merged with Edyficar S.A.S. in October 2020, this subsidiary is oriented to grant credits to the micro and small business sector. As of March 31, 2022 and December 31, 2021, the direct and indirect interest held by Credicorp and the assets, liabilities, equity and net income were:

Entity	Percentage of interest (direct and indirect)		Assets		Liabilities		Equity		Net income (loss) for the three-month period ended March 31,		
	As of March 31, 2022	As of December 31, 2021	As of March 31, 2022	As of December 31, 2021	As of March 31, 2022	As of December 31, 2021	As of March 31, 2022	As of December 31, 2021	2022	2021	
	%	%	%	%	%	%	%	%	%	%	
Credicorp Capital Colombia S.A.	100.00	100.00	1,030,041	1,544,956	853,760	1,378,697	176,281	166,259	9,433	7,757	
MiBanco - Banco de la Microempresa de Colombia S.A.	85.58	85.58	1,511,973	1,392,887	1,272,082	1,158,575	239,891	234,312	5,039	1,587	

- b) Credicorp Holding Chile was incorporated in Chile on July 18, 2012, and aims to invest for long-term profitable purposes, in corporeal goods (movable and immovable property) and incorporeal, located in Chile or abroad. Its main subsidiary is Credicorp Capital Chile S.A.
- c) Credicorp Capital Holding Perú S.A. was incorporated in Peru on October 30, 2014, and aims to be the Peruvian holding of investment banking. Its main subsidiary Credicorp Capital Perú S.A.A.; which has as its main activity the function of holding shares, participations and transferable securities in general, providing advisory services in corporate and financial matters, and investment in real estate.
- (v) CCR Inc. was incorporated in 2000, its main activity is to manage loans granted to BCP by foreign financial entities, see Note 17(a)(v). These loans are collateralized by transactions performed by BCP.

d) International Financial Reporting Standards issued but not yet effective -

The Group decided not to early adopt the following standards and interpretations that were issued but are not effective as of March 31, 2022:

IFRS 17 "Insurance Contracts" -

IFRS 17 was issued in May 2017 in replacement of IFRS 4 "Insurance Contracts". This standard requires a current measurement model, where estimate is remeasured in each reporting period.

The contracts are measured using the building blocks of:

- Discounted- weighted of probability cash flows
- An explicit risk adjustment, and
- A contractual service margin which represents the unearned profit of the contract recognized as income over the coverage.

IFRS 17 applies to all types of insurance contracts (life, non-life and reinsurance insurance), regardless of the type of entities that issue them, as well as certain guarantees and financial instruments with certain discretionary participation characteristics. The general objective of IFRS 17 is to provide an accounting model that is more useful and uniform for insurance entities. Unlike IFRS 4, which relies heavily on the application of existing / local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, which covers all relevant accounting aspects.

The standard permits a choice between recognizing the changes in discount rates, either in the statement of income or directly in other comprehensive income. The choice probably reflects how insurers record their financial assets according to IFRS 9.

An optional, simplified premium allocation approach is permitted for the liability for the remaining coverage for short duration contracts, which are often written by non-life insurers.

There is a modification of the general measurement model denominated "Variable commissions method" for certain contracts of insurers with life insurance in which the insured share the yields from the underlying elements. Upon applying the variable commissions' method, the entity's participation in changes in fair value of the underlying elements is included in the contractual service margin. Therefore, it is probable that the results of the insurers that use this model will be less volatile than under the general model.

The new rules will affect the financial statements and key performance indicators of all entities that issue insurance contracts or investment contracts with discretionary participation features.

Also, its implementation will modify the recognition, measurement, presentation and disclosure of insurance contracts having a significant impact on the underlying valuation models, systems, processes, internal controls and other fundamental aspects of the insurance business.

The Group has established governance structures related to the IFRS 17 project with the Audit Committee as the highest instance. As required by the standard, currently, the entities that make up the Group are in the process of determining the impact of their application.

Initially, IFRS 17 would apply to annual periods beginning on or after January 1, 2021; however, on June 25, 2020, the IASB agreed to defer the effective date of application to annual periods beginning on or after January 1, 2023.

(i) Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in associates and joint ventures": Sale or contribution of assets between an investor and its associate or joint venture -

The IASB made limited scope amendments to IFRS 10 and IAS 28.

The amendments clarify the accounting treatment of the sales or contribution of assets between an investor and his associates or joint venture. These amendments confirm that the accounting treatment depends on whether the non-monetary assets sold or contributed to an associate or joint venture constitutes "a business" (as defined in IFRS 3 "Business combinations").

If the non-monetary assets constitute a business, the investor will recognize the total gain or loss on the sale or contribution of assets. If the assets do not comply with the definition of "business", the investor will recognize the gain or loss only in proportion to the investor's investment in the associate or joint venture. The amendments will apply prospectively.

The IASB decided to defer the application date of this amendment until it has completed its research project on the equity method.

The Group is in the process of evaluating the impact of the application of these standards, and to date, it considers that there will be no significant impact on the interim condensed consolidated financial statements, except for IFRS 17.

Likewise, there are no other standards or amendments to standards which have not yet become effective and are expected to have a significant impact on the Group, either in the current or future periods, as well as on expected future transactions.

#### 4 CASH AND DUE FROM BANKS

a) The composition of the item is presented below:

	As of March 31, 2022	December 31, 2021
	S/(000)	S/(000)
Cash and clearing (b)	5,475,265	4,973,007
Deposits with Central Reserve Bank of Peru (BCRP) (b)	25,855,296	25,359,565
Deposits with Central Bank of Bolivia and Colombia (b)	714,145	913,377
Deposits with foreign banks (c)	3,366,980	6,727,014
Deposits with local banks (c)	876,321	1,316,292
Interbank funds	3,445	2,943
Accrued interest	2,588	1,347
Total cash and cash equivalents	36,294,040	39,293,545
Restricted funds	17,989	27,195
Total cash	36,312,029	39,320,740

Cash and cash equivalents presented in the interim condensed consolidated statement of cash flows exclude restricted funds.

b) Cash and clearing and deposits with Central Reserve Banks -

These accounts mainly include the legal cash requirements that subsidiaries of Credicorp must keep to honor their obligations with the public. The composition of these funds is as follows:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Legal cash requirements (i)		
Deposits with Central Reserve Bank of Peru	16,270,470	19,383,577
Deposits with Central Bank of Bolivia	710,243	905,309
Deposits with Republic Bank of Colombia	3,902	8,068
Cash in vaults of Bank	4,708,150	4,275,997
Total legal cash requirements	21,692,765	24,572,951
Additional funds		
Overnight deposits with Central Reserve Bank		
of Peru (ii)	6,506,360	4,536,379
Term deposits with Central Reserve Bank of Peru (iii)	3,015,000	1,260,000
Cash in vaults of Bank and others	767,115	697,010
Other Deposits BCRP	63,466	179,609
Total additional funds	10,351,941	6,672,998
Total	32,044,706	31,245,949

(i) As of March 31, 2022, cash and deposits that generate interest subject to legal cash requirements in local and foreign currency are subject to an implicit rate of 5.50 percent and 33.93 percent, respectively, on the total balance of obligations subject to legal cash requirements, as required by the BCRP (4.77 percent and 33.17 percent, respectively, as of December 31, 2021).

In Management's opinion, the Group has complied with the calculation legal cash requirements established by current regulations.

(ii) As of March 31, 2022, the Group maintains three "overnight" deposits with the BCRP, of which one is denominated in soles in amount of S/280.0 million and two are in U.S Dollars in amount of US\$1,683.7 million, equivalent to S/6,226.4 million. At said date, the deposit in soles and deposits in U.S Dollars accrue interest at annual rates of 2.50 percent and 0.33 percent, respectively, and have maturities at 1 day.

As of December 31, 2021, the Group maintains four "overnight" deposits with the BCRP, which are two denominated in soles in amount of S/690.0 million and two in U.S Dollars in amount of US\$964.7 million, equivalent to S/3,846.4 million. At said date, deposit in soles and deposits in U.S Dollars accrue interest at annual rates of 1.85 percent and 0.05 percent, respectively, and have maturities at 3 days.

- (iii) In order to manage liquidity and in view of the BCRP's offer of profitable rates for short-term deposits. The Group maintains six term deposits, which are denominated in soles, accrue interest at an annual rate of 3.72 percent and 3.97 percent and have maturities between April 1 and 4, 2022. As of December 31, 2021, the group held four term deposits denominated in soles, accruing interest at an annual rate of 2.48 percent and 2.49 and have maturing between January 3 and January 4, 2022. The decrease in term deposits at the BCRP is mainly due to lower liquidity surpluses due to a lower level of customer deposits.
- c) Deposits with local and foreign banks -

Deposits with local and foreign banks mainly consist of balances in soles and U.S. dollar; these are cash in hand and earn interest at market rates. As of March 31, 2022, and December 31, 2021 Credicorp and its subsidiaries do not maintain significant deposits with any bank in particular.

# 5 CASH COLLATERAL, REVERSE REPURCHASE AGREEMENTS AND SECURITIES BORROWING AND PAYABLES FROM REPURCHASE AGREEMENTS AND SECURITIES LENDING

 a) We present below the composition of cash collateral, reverse repurchase agreements and securities borrowing:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Cash collateral on repurchase agreements and security lendings (i)	878,275	1,080,616
Reverse repurchase agreement and security borrowings Receivables for short sales Total	596,337 42,243 1,516,855	654,783 31,549 1,766,948

(i) As of March 31, 2022, the balance corresponds mainly to cash collaterals in U.S. dollar and bolivianos. Banco Central de Bolivia received cash collateral in bolivianos and U.S. dollar for the equivalent of S/676.1 million (S/736.2 million, at December 31, 2021). Cash collateral for US\$52.5 million, equivalent to S/194.3 million, were delivered to BCRP to secure debts with this same institution for approximately S/185.0 million (as of December 31, 2021, cash collateral for approximately US\$82.4 million, equivalent to S/328.4 million to secure a borrowing in soles of approximately S/285.0 million).

Cash collateral granted bears interest at an average annual effective interest rate according to market rates. The related liability is presented in "Payables from repurchase agreements and securities lending" of the interim condensed consolidated statement of financial position, see paragraph (c) below.

b) Credicorp, through its subsidiaries, obtains financing through "Payables from repurchase agreements and securities lending" by selling financial instruments and committing to repurchase them at future dates, including interest at a fixed rate. The details of said transactions are as follows:

		As of Marc	h 31, 2022					As of December 31, 2021							
	Currency	Average interest rate	Up to 3 days S/(000)	From 3 to 30 days S/(000)	More than 30 days S/(000)	Carrying amount S/(000)	Fair value of underlying assets S/(000)	Average interest rate	Up to 3 days S/(000)	From 3 to 30 days S/(000)	More than 30 days S/(000)	Carrying amount S/(000)	Fair value of underlying assets S/(000)

<sup>(\*)</sup> Throug Repo Operations, BCP and MiBanco sell representing credit securities guaranteed by the BCRP, they receive soles and are obliged to buy them back at a later date. The credit representing securities with guarantee of the National Government may have the form of a portfolio of credit representing titles or of Certificates of Participation in trustee of the loan portfolio guaranteed by the National Government (Reactiva Especial). The BCRP will charge a fixed interest annual rate in soles of 0.50 percent for the operation and will include a grace period of twelve months without payment of interest or principal. As of March 2022, the total credits granted through the Reactiva Perú program are S/16,233.3 million (S/18,404.6 million, at December 31, 2021), see Note 7(a).

As of March 31, 2022 and December 31, 2021, the repurchase agreements secured with investments accrue interest at fixed and variable rates between 0.50 percent and 6.73 percent and between Libor 6M + 1.68 percent and Libor 6M + 1.90 percent. Also, certain repurchase agreements were hedged using cross-currency swaps (CCS), see Note 13(c).

## **6** INVESTMENTS

a) Investment at fair value through profit or loss consist of the following:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Mutual funds (i)	1,467,799	1,574,233
Certificates of deposit BCRP (ii)	633,926	1,111,142
Government treasury bonds (iii)	584,291	1,185,541
Investment funds (iv)	556,288	531,847
Restricted mutual funds (v)	372,079	365,954
Corporate bonds	278,772	172,857
Participation in RAL Funds (vi)	247,245	323,139
Hedge funds	188,794	176,816
Subordinated bonds	93,743	110,484
Shares	72,326	90,728
ETF (Exchange - Traded Fund)	40,717	105,305
Multilateral organization bonds	55,737	33,082
Central Bank of Chile bonds	14,119	32,761
Others	19,696	105,310
Balance before accrued interest	4,625,532	5,919,199
Accrued interest	4,163	9,298
Total	4,629,695	5,928,497

- (i) As of March 31, 2022, the balance corresponds to mutual funds from Luxembourg, Bolivia, Ireland and other countries, which represent 68.3 percent, 22.0 percent, 3.7 percent and 6.0 percent of the total, respectively. As of December 31, 2021, the balance corresponds to mutual funds from Luxembourg, Bolivia, Ireland and other countries, which represent 70.5 percent, 21.5 percent, 3.8 percent and 4.2 percent of the total, respectively.
- (ii) As of March 31, 2022, the balance corresponds to 1,714 certificates of deposit for US\$171.4 million, equivalent to S/633.9 million, whose interest rates are from 0.03 percent to 0.51 percent, and with maturities from April to May 2022. As of December 31, 2021, the balance corresponds to 2,789 certificates of deposit for US\$278.7 million, equivalent to S/1,111.1 million, accruing interest at an annual effective rate of 0.67 percent to 0.70 percent, and with maturities from January to February 2022. The variation corresponds mainly to the maturity of the instruments.
- (iii) As of March 31, 2022 and December 31, 2021, the balance of these instruments includes the following government treasury bonds:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Colombian treasury bonds	437,414	898,733
Chilean treasury bonds	61,728	66,643
Peruvian treasury bonds	50,797	211,571
U.S. treasury and federal agency bonds	31,967	7,948
Dominican Republic treasury bonds	1,805	_
Brazilian treasury bonds	580	646
Total	584,291	1,185,541

- (iv) As of March 31, 2022, the balance corresponds mainly to investment funds in Peru and the United States that represent 56.3 percent and 38.2 percent, respectively, among other countries. As of December 31, 2021, the balance corresponds mainly to investment funds in Peru and the United States that represented 40.6 percent and 55.6 percent, respectively.
- (v) The restricted mutual funds comprise the participation quotas in the private pension funds managed by PRIMA AFP and are maintained in compliance with the legal regulations in Peru. Their availability is restricted and the yield received is the same as that received by the private pension funds managed.
- (vi) As of March 31, 2022, these funds are approximately Bs 264.6 million, equivalent to S/143.8 million, and US\$28.0 million, equivalent to S/103.5 million. As of December 31, 2021, these funds were approximately Bs 346.1 million, equivalent to S/202.3 million, and US\$30.3 million, equivalent to S/120.8 million; and comprise the investments made by the Group in the Central Bank of Bolivia as collateral for deposits received from the public. These funds have restrictions for their use and are required from all banks in Bolivia.

b) Investments at fair value through other comprehensive income consist of the following:

	As of March 31	, 2022			As of December 31, 2021

Credicorp's Management has determined that the unrealized losses of investments at fair value with changes in other comprehensive income as of March 31, 2022 and December 31, 2021 are of a temporary nature; considering factors such as the planned strategy in relation to the security or portfolio identified, the related guarantee and the credit rating of the issuers. During 2022, as a result of the evaluation of the impairment loss of investments at fair value with changes in other comprehensive income, the Group has recorded a provision for credit loss amounting to S/27.9 million (provision of credit loss of S/5.4 million during the three-month periods ended March 31, 2021), which is presented in the caption "Net (loss) gain on securities", see Note 24, of the consolidated income statement. Likewise, Management has decided and has the capacity to maintain each of these investments for a sufficient period of time to allow an early recovery in the fair value, even before its recovery or expiration.

The maturities and annual market rates of investments at fair value through other comprehensive income as of March 31, 2022 and December 31, 2021, are as follows:

	Maturities	Annual effective interest rate												
	As of March 31, 2022	As of December 31, 2021	As of Marc	ch 31, 2022		As of December 31, 2021

Likewise, as of March 31, 2022, the Group has entered into repurchase agreements (Repos) on public treasury bonds and BCRP certificates of deposit classified as investments at fair value with changes in other comprehensive income for an estimated market value of S/294.6 million. As of December 31, 2021 the Group entered into these agreements on public treasury bonds and BCRP certificates of deposit for an estimated market value of S/318.4 million; whose related liability is presented in the caption "Payables from repurchase agreements and securities lending" of the consolidated statement of financial position, see Note 5(c).

(i) As of March 31, 2022, the balance corresponds to corporate bonds issued by companies from the United States, Peru, Chile and other countries, which represent 40.3 percent, 36.4 percent, 4.5 percent and 18.9 percent of the total, respectively. As of December 31, 2021, the balance corresponds to corporate bonds issued by companies from the United States, Peru, Chile, and other countries, which represent 38.1 percent, 37.1 percent, 4.6 percent and 20.2 percent of the total, respectively.

As of March 31, 2022, the most significant individual unrealized loss amounts to approximately S/38.0 million from Peruvian company Rutas de Lima S.A.C. (S/18.5 million as of December 31, 2021). The largest unrealized loss with respect to the 2021 balance sheet is due to market behavior.

(ii) As of March 31, 2022 and December 31, 2021, the balance includes the following Government Treasury Bonds:

	As of March 31, 2022	As of December 31, 2021	
	S/(000)	S/(000)	
Peruvian treasury bonds	7,219,971	7,496,775	
U.S. treasury and federal agency bonds	1,928,649	1,455,114	
Colombian treasury bonds	144,109	87,428	
Chilean treasury bonds	81,390	83,978	
Bolivian treasury bonds	79,804	89,941	
Others	20,699	25,163	
Total	9,474,622	9,238,399	

- (iii) As of March 31, 2022, the Group maintains 95,673 certificates of deposits BCRP (83,494 as of December 31, 2021); which are instruments issued at discount through public auction, traded on the Peruvian secondary market and payable in soles. The decrease in the balance is mainly due to the maturity of these instruments.
- (iv) As of March 31, 2022 and December 31, 2021, the balance of securitization instruments includes the following:

	As of March 31, 2022	As of December 31, 2021	
	S/(000)	S/(000)	
Inmuebles Panamericana S.A.	138,242	142,629	
ATN S.A.	84,872	98,525	
Colegios Peruanos S.A.	65,131	68,714	
Industrias de Aceite S.A.	52,296	-	
Costa de Sol S.A.	40,781	46,502	
Nessus Hoteles Perú S.A.	34,102	38,547	
Concesionaria La Chira S.A.	26,439	27,370	
Fábrica Nacional de Cemento S.A.	26,164	28,187	
Homecenters Peruanos S.A.	25,924	27,206	
Others	172,160	243,709	
Total	666,111	721,389	

The instruments have semiannual payments until 2045. The pool of underlying assets consists mainly of accounts receivable from income, revenues for services and from maintenance and marketing contributions (Inmuebles Panamericana S.A.), and accounts receivable for electrical transmission services from the Carhuamayo - Cajamarca line (ATN S.A.).

- (v) As of March 31, 2022, the balance corresponds to certificates for US\$0.67 million, equivalent to S/2.5 million, in currency soles for S/6.7 million; and in other currencies, equivalent to S/506.5 million issued mainly by the financial systems of Colombia and Bolivia. As of December 31, 2021, the balance corresponds to certificates for US\$0.67 million, equivalent to S/2.7 million, in soles currency for S/6.8 million; and in other currencies, equivalent to S/615.1 million issued mainly by the financial system of Colombia and Bolivia.
- c) Amortized cost investments consist of the following:

	As of March 31, 2022	
	Carrying amount S/(000)	Fair value S/(000)
Peruvian sovereign bonds (i)	7,419,490	6,783,510
Corporate bonds (i)	395,250	398,391
Subordinated bonds (i)	79,936	81,884
Certificates of payment on work progress (CRPAO) (ii)	63,455	64,414
Foreign government bonds (i)	45,313	45,074
.,	8,003,444	7,373,273
Accrued interest	60,606	60,606
Total investments at amortized cost	8,064,050	7,433,879

	As of December 31, 2021	
	Carrying Fair	
	amount	value
	S/(000)	S/(000)
Peruvian sovereign bonds (i)	7,438,364	7,169,787
Corporate bonds (i)	420,263	419,069
Subordinated bonds (i)	86,861	86,412
Certificates of payment on work progress (CRPAO) (ii)	74,499	19,310
Foreign government bonds (i)	74,122	73,645
	8,094,109	7,768,223
Accrued interest	171,450	171,450
Total investments at amortized cost	8,265,559	7,939,673

(i) As of March 31, 2022, said bonds have maturities between April 2022 and February 2042; accruing interest at an annual effective rate between 4.94 percent and 7.11 percent for bonds issued in soles, between 1.76 percent and 7.59 percent for bonds issued in U.S. dollar, and between 0.0 percent and 4.13 percent per year for bonds issued in other currencies (as of December 31, 2021, they have maturities between January 2022 and February 2042, accruing interest at an annual effective interest rate between 3.62 percent and 6.77 percent on bonds denominated in soles, between 0.71 percent and 4.50 percent for bonds issued in U.S. dollar and between 0.0 percent and 2.96 percent on bonds issued in other currencies).

It is worth mentioning that the instruments with an interest rate of 0.00 percent corresponds to bonds issued by the Colombian Government, whose issue indicators on the date of acquisition were at very low levels; however, MiBanco Colombia invested in these instruments because it is a Colombian company and must invest in them according to local regulations, with the objective that the funds acquired by the Colombian Government are destined for the development and incentive of certain economic sectors.

Likewise, Credicorp Management has determined that as of March 31, 2022, the difference between amortized cost and the fair value of these investments is temporary in nature and Credicorp has the intention and ability to hold each of these investments until its maturity.

As of March 31, 2022, the Group has repurchased agreement transactions for investments at amortized cost for an estimated fair value of S/3,860.0 million (S/3,854.0 million as of December 31, 2021), the related liability for which is presented in the caption "Payables from repurchase agreements and securities lending" in the interim condensed consolidated statement of financial position, see Note 5(c).

- (ii) As of March 31, 2022, there are 81 certificates of Annual Recognition of Payment on Work Progress - CRPAO from Spanish initials (89 CRPAOs as of December 31, 2021), issued by the Peruvian Government to finance projects and concessions. Said issuance is a mechanism established in the concession agreement signed between the State and the concessionaire, which allows the latter to obtain financing to continue with the work undertaken. Said investment mature between April 2022 and April 2026, accruing interest at an annual effective rate between 2.63 percent and 5.50 percent (between January 2022 and April 2026, accruing interest at an annual effective rate between 2.32 percent and 4.26 percent as of December 31, 2021).
- d) The table below shows the balance of investments classified by maturity, without consider accrued interest or provision for credit loss:

As o	of Mai	rch 31	1, 2022

	At fair value through profit or loss S/(000)	At fair value through other comprehensive income	Amortized cost S/(000)

J	143,449,326	146,416,819
Add (less) -		
Accrued interest	1,256,810	1,280,262
Unearned interest	(84,623)	(99,669)
Total direct loans	144,621,513	147,597,412
Allowance for loan losses (c)	(8,262,383)	(8,477,308)
Total direct loans, net	136,359,130	139,120,104

The credits granted as part of the Reactiva Perú program are guaranteed by the Peruvian Government, these loans accrue interest at rates lower than market rates. The total granted through this program as of March 31, 2022 is S/16,233.3 million (S/18,404.6 million as of December 31, 2021). These amounts include the rescheduled credits of the Reactiva Perú for S/7,428.7 million (S/7,539.9 million as of December 31, 2021). Likewise, the Group has Repurchase Agreements which guarantees are detailed in Note 5(c).

The government, to serve small companies that the Reactiva Perú program does not reach, has established the Business Support Fund for the MYPE (FAE-MYPE) which represents for MiBanco a total of S/9.8 million and S/181.1 million for FAE-MYPE 1 and FAE-MYPE 2, respectively as of March 31, 2022 (S/14.8 million and S/209.9 million for FAE-MYPE 1 and FAE-MYPE 2, respectively as of December 31, 2021). These amounts include the rescheduled credits of FAE-MYPE 2 programs S/55.2 million (S/55.9 million as of December 31, 2021).

Likewise, due COVID-19 Pandemic effects, BCP and MiBanco, the main Subsidiaries of Credicorp have offered its clients the opportunity to reschedule their loans for 30 or 90 days without incurring in overdue fees and interest on capital. As of March 31, 2022, the rescheduled portfolio amounted to S/16,444.7 million (S/20,961.1 million as of December 31, 2021).

In the loan portfolio, the most vulnerable segments are: MiBanco and within BCP stand-alone SME-Pyme and individuals, where debt reprogramming rates reached 31.2 percent, 16.1 percent and 8.2 percent respectively at the end of March 31, 2022 (5.3 percent, 34.0 percent and 11.4 percent respectively as of December 31, 2021).

b) As of March 31, 2022 and December 31, 2021, the composition of the gross credit balance is as follows:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Direct loans	143,449,326	146,416,819
Indirect loans, Note 21(a)	21,196,817	22,914,343
Due from customers on banker's acceptances	524,448	532,404
Total	165,170,591	169,863,566

The composition of gross balance of direct and indirect loans and the allowance for loan losses by stages is as follows (including due from customers on banker's acceptances):

	Direct and indirect loans		Allowance for lo	
Loans by class	As of March 31, 2022	As of December 31, 2021	As of March 31, 2022	As of December 31, 2021

Micro-business loans	21,924,985	21,637,264	2,169,250	2,208,049
Consumer loans	17,607,977	16,014,227	1,655,059	1,896,776
Total	165,170,591	169,863,566	8,851,835	9,071,011

<sup>(</sup>a) Gross balance of direct loans, indirect loans and due from customers on banker's acceptances:

As of March 31, 2022, the gross balance of direct loans, indirect loans and due from customers on banker's acceptances decreased compared to December 31, 2021. The decrease was concentrated in Commercial loans at BCP, which was driven by the fall of the exchange rate (Sol/US\$) and by the amortization of loans from Reactiva Perú. This was partially offset by the increase in the disbursements of Consumer loans at BCP and Microbusiness loans at Mibanco Perú.

(b) Allowance for loan losses from direct loans, indirect loans and due from customers on banker's acceptances:

As of March 31, 2022, the allowance for loan losses gross from direct loans, indirect loans and due from customers on banker's acceptances decreased compared to December 31, 2021. The decrease was concentrated in Consumer loans at BCP, which was mainly driven by the improvement in the credit behavior of the clients of this portfolio, which led to a lower probability of default (PD). Additionally, the decrease was explained by the fall of the exchange rate (Sol/US\$) and the write offs. This was partially offset by other effects, being the most important the update of the macroeconomic projections, which were more pessimistic than the ones considered in the figures presented as of December 31, 2021.

c) The allowance for loan loss for direct and indirect loans was determined under the expected credit loss model as established in IFRS 9. The movement of the allowance for loan loss for direct and indirect loans is shown below:

For the	three-month	period
ended I	March 31.	

	2022	2021	
	S/(000)	S/(000)	
Balance at beginning of period	9,071,011	10,435,623	
Provision for credit losses on loan	350,681	622,982	
Written-offs loans, Note 7(b)	(386,954)	(761,727)	
Exchange differences and others (*)	(182,903)	(9,921)	
Balance ended of period (**)	8,851,835	10,286,957	

- (\*) The variation is mainly is due to the decrease in the provision because for the appreciation of the Sol against U.S Dollar of S/3.698 as of March 31, 2022 and S/3.987 as of December 31, 2021 (S/3.757 as of March 31, 2021 and S/3.621 as of December 31, 2020). Likewise, includes S/8.2 million of portfolio sale as three-month ended March 31, 2022 (S/38.7 million of portfolio sale for the first quarter of 2021).
- (\*\*) The movement in the allowance for loan losses for the three-month period ended March 31, 2022 includes the allowance for direct and indirect loans for approximately S/8,262.4 million and S/589.4 million, respectively (approximately S/9,744.3 million and S/542.7 million, respectively, as of December 31, 2021). The expected loan loss for indirect loan is included in "Other liabilities" of the interim condensed consolidated statement of financial position, Note 13(a). In Management's opinion, the allowance for loan losses recorded as of March 31, 2022 and December 31, 2021 has been established in accordance with IFRS 9 and is enough to cover expected losses on the loan portfolio.
- d) Interest rates on loans are set considering the rates prevailing in the markets where the Group's subsidiaries operate.
- e) A portion of the loan portfolio is collateralized with guarantees received from customers, which mainly consist of mortgages, trust assignments, securities and industrial and mercantile pledges.

f) The following table presents the gross direct loan portfolio as of March 31, 2022 and December 31, 2021 by maturity based on the remaining period to the payment due date:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Outstanding loans -	3/(000)	3/(000)
Up to 1 year	63,994,279	64,096,027
From 1 to 3 years	33,721,857	36,354,113
From 3 to 5 years	9,658,793	9,327,203
From 5 to 15 years	26,216,894	26,926,208
More than 15 years	3,978,492	4,150,829
	137,570,315	140,854,380
Internal overdue loans -		
Overdue up to 90 days	1,381,164	1,353,655
Over 90 days	4,497,847	4,208,784
	5,879,011	5,562,439
Total	143,449,326	146,416,819

See credit risk analysis in Note 34.1.

### 8 FINANCIAL ASSETS DESIGNATED AT FAIR VALUE THROUGH PROFIT OR LOSS

The Group issues Investment Link life insurance contracts whereby the policyholder takes the investment risk on the assets held in the Investment Link funds as the policy benefits are directly linked to the value of the assets in the fund. The Group's exposure to market risk is limited to the extent that income arising from asset management charges is based on the value of assets in the fund.

The profit resulting from these assets is shown in "Net premiums earned" in the interim condensed consolidated statement of income. The composition of the generated returns is presented below:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Net result	(71,414)	44,763
Dividends, interests and others	910	9,900
Total	(70,504)	54,663

The net result from the sale and fluctuation of financial instruments is mainly due to high volatility prices of financial instruments as a result of the increase in worldwide inflation and the expectations of harsh monetary measures by central banks to counteract these effects. On the other hand, in Europe, Russia's invasion of Ukraine affected the positive signs obtained during the first two months of 2022 as a result of the decrease in COVID-19 infections and the lifting of restrictions. Finally, the main Asian economies showed signs of an economic slowdown due to the persistence of problems in the supply chain and new confinements of cities and ports in China as a result of COVID-19 infections.

The offsetting of this effect is included in the technical reserve adjustment, which is part of the item "Net premiums earned" of the interim condensed consolidated statement of income, see Note 25(a).

### 9 ACCOUNTS RECEIVABLE AND PAYABLE FROM INSURANCE CONTRACTS

- a) As of March 31, 2022 and December 31, 2021, "Premiums and other policies receivable" in the interim condensed consolidated statement of financial position includes balances for approximately S/873.5 million and S/921.1 million, respectively, which are primarily of current maturity, have no specific collateral and present no material past due balances.
- b) The movements of the captions "Accounts receivable and payable to reinsurers and coinsurers" are as follows:

### Accounts receivable:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Balances as of January 1	1,198,379	919,419
Reported claims of premiums ceded, Note 26	86,675	542,341
Reserve risk in progress of premiums ceded, Note 25(a) (***) Premiums assumed	54,379 -	8,996 803
Settled claims of premiums ceded by reinsurance contracts	(40,610)	(419,342)
Collections and others, net	(132,727)	146,162
Balances at the end of the period	1,166,096	1,198,379

Accounts receivable as of March 31, 2022 and December 31, 2021, include S/298.7 million and S/299.0 million, respectively, which correspond to the assigned portion of technical reserves for premiums ceded to the reinsurers.

As of March 31, 2022, the variation in Collections and others net corresponds mainly to Settled claims of premiums ceded by facultative contracts that are collected from the reinsurer.

### **Accounts Payable:**

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Balances as of January 1	463,825	338,446
Premiums ceded for automatic contracts (mainly excess of loss), Note 25(a) (***)	102,014	355,356
Premiums ceded to reinsurers in facultative contracts, Note 25(a) (***)	152,008	392,346
Coinsurance granted	8,699	8,154
Payments and other, net	(312,040)	(630,477)
Balances at the end of the period	414,506	463,825

Accounts payable to reinsurers are primarily related to proportional facultative contracts (on an individual basis) for ceded premiums, automatic non-proportional contracts (excess loss) and reinstallation premiums. For facultative contracts the Group transfers to the reinsurers a percentage or an amount of an insurance contract or individual risk, based on the premium and the coverage period.

As of March 31, 2022, the variation corresponds mainly to payments received for S/361.6 million.

## 10 PROPERTY, FURNITURE AND EQUIPMENT, NET

a) The composition of property, furniture and equipment and accumulated depreciation as of March 31, 2022 and December 31, 2021 and 2020 was as follows:

	Land S/(000)	Buildings and other constructions S/(000)	Installations S/(000)	Furniture and fixtures S/(000)	Computer hardware S/(000)	Vehicles and equipment S/(000)	Work in progress S/(000)	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)	As of December 31, 2020 S/(000)

Net carrying amount	401,594	437,109	189,068	133,822	60,391	23,174	36,816	1,281,974	1,308,779	1,374,875

Banks, financial institutions and insurance entities operating in Peru are not allowed to pledge their fixed assets.

During the three-month period ended March 31, 2022, the Group did not have any significant commitments to purchase property, furniture and equipment. During 2021 as part of the investment in fixed assets made annually, it has made disbursements related mainly to the remodeling of its headquarters located in La Molina, San Pedro office, Lima office. During 2020, the Group has not had any significant commitment to purchase property, furniture and equipment; likewise, as part of the investment in fixed assets made annually, it has made disbursements related mainly to the remodeling of its headquarters located in La Molina and the comprehensive remodeling of the Café Dasso office.

Credicorp's subsidiaries hold insurance contracts over its main assets in accordance with the policies established by Management.

Management periodically reviews the residual value, useful life and method of depreciation of the Group's property, furniture and equipment to ensure that they are consistent with their actual economic benefits and life expectations. In Management's opinion, as of March 31, 2022 and December 31, 2021 and 2020 there is no evidence of impairment of the Group's property, furniture and equipment.

## 11 INTANGIBLE ASSETS AND GOODWILL, NET

## a) Intangible assets -

The composition of intangible assets with limited useful life and accumulated amortization as of March 31, 2022 and December 31, 2021 and 2020 was as follows:

Description	Client relationships (i) S/(000)	Brand name (ii) S/(000)	Fund manager contract (iii) S/(000)	Relationships with holders S/(000)	Software and developments S/(000)	Intangible in progress S/(000)	Other S/(000)	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)	As of December 31, 2020 S/(000)
Cost -										
Balances at January 1	380,413	171,864	95,378	21,100	3,359,995	656,912	22,643	4,708,305	4,293,864	3,804,989

Management has assessed at each reporting date that there was no indication that customer relationships, brand name, fund management contract and software and developments may be impaired.

### b) Goodwill -

Goodwill acquired through business combinations has been allocated to each subsidiary or groups of them, which are also identified as a CGU for the purposes of impairment testing.

Net carrying amount	809,980	796,859

The recoverable amount of all the CGUs has been determined based in the present value of the discounted cash flows or dividends determined principally with assumptions of revenue and expenses projection (based on efficiency ratios).

Goodwill balance from Credicorp Holding Colombia (due to the acquisition of Credicorp Capital Colombia S.A, Banco Compartir S.A. and Ultraserfinco S.A.) and Tenpo SpA (due to the acquisition of Tenpo Technologies SpA and Tenpo Prepago S.A.) are affected by the volatility effect of the local exchange rate currency of the country in which they operate against the exchange rate of functional currency of Credicorp Ltd. and subsidiaries.

As of March 31, 2022, the group has evaluated the impairment of goodwill by making an interim estimate based on the information available, concluding that there is no evidence of impairment at said date; therefore, during the three-month period ended March 31, 2022 and December 31, 2021 the Group did not recorded any impairment loss.

# 12 RIGHT-OF-USE ASSETS AND LEASE LIABILITES

# a) Right-of-use

The Group has leased agreements according to the following composition:

	Property: Agencies and offices	Servers and technology platforms	Transport units	Other leases	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)
Cost -						
Balance as of January 1,	769,181	151,135	2,731	46,308	969,355	990,148

b) As of March 31, 2022, the balance is mainly made up of margin call for derivatives for S/447.3 million, works for taxes for S/185.3 million, accounts receivable from visa for payments to establishments for S/101.7 million, accounts receivable from deferred currency sale for S/47.0 million, dividends receivable for S/46.2 million, account receivable for rent for S/42.6 million, commissions receivable for S/30.2 million, advances to staff for S/19.6 million, among others (as of December 31, 2021, the balance corresponds mainly to margin call of derivative transactions for S/410.3 million, works for taxes for S/178.3 million, accounts receivable from Visa for payments to establishments for S/111.0 million, accounts receivable for sale of deferred currency for S/89.7 million, taxes paid on behalf of third parties and other tax-related accounts receivable for S/73.7 million, account receivable for financial intermediation for S/27.3 million, accounts receivable from associated companies for S/6.6 million, among others).

c) The risk in derivative contracts arises from the possibility of the counterparty failing to comply with the terms and conditions agreed and that the reference rates at which the transactions took place change.

The table below shows as of March 31, 2022 and December 31, 2021 the fair value of derivative financial instruments, recorded as an asset or a liability, together with their notional amounts and maturities. The nominal amount, recorded gross, is the amount of a derivative's underlying asset and is the basis upon which fair value of derivatives is measured.

<sup>(\*)</sup> As we mentioned in Note 5(c) certain repurchase agreements were hedged using cross-currency swaps (CCS).

(\*\*) Corresponds to investments classified at the fair value through other comprehensive income under IFRS 9 as of March 31, 2022 and December 31, 2021.

Held-for-trading derivatives are principally negotiated to satisfy customers' needs. On the other hand, the Group may also take positions with the expectation of profiting from favorable movements in prices or rates. Also, this caption includes any derivatives which do not comply with IFRS 9 hedge accounting requirements. Fair value of derivatives held for trading classified by contractual maturity is as follows:

The Group has established a policy to remunerate demand deposits and savings accounts according to a growing interest rate scale, based on the average balance maintained in those accounts; on the other hand, according to its policy, balances that are lower than a specified amount for each type of account do not bear interest. Also, time deposits earn interest at market rates.

Interest rates are determined by the Group considering the interest rates prevailing in the market in which each of the Group's subsidiaries operates.

b) The amounts of non-interest-bearing and interest-bearing deposits and obligations without consider accrued interest are presented below:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Non-interest-bearing -		
In Peru	46,412,293	45,909,164
In other countries	4,527,566	5,942,042
	50,939,859	51,851,206
Interest-bearing -		
In Peru	85,914,865	86,987,254
In other countries	10,303,466	10,749,338
	96,218,331	97,736,592
Total	147,158,190	149,587,798

The balance of time deposits classified by maturity is as follows:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Up to 3 months	13,974,423	14,133,476
From 3 months to 1 year	8,394,655	8,661,200
From 1 to 3 years	3,192,978	2,517,392
From 3 to 5 years	428,496	419,445
More than 5 years	2,733,823	2,936,607
Total	28,724,375	28,668,120

In Management's opinion the Group's deposits and obligations are diversified with no significant concentrations as of March 31, 2022 and December 31, 2021.

As of March 31, 2022 and December 31, 2021, of the total balance of deposits and obligations, approximately S/49,682.8 million and S/50,478.8 million, respectively, are secured by the Peruvian "Fondo de Seguro de Depósitos" (Deposit Insurance Fund). At said dates, maximum amount of coverage per depositor recognized by "Fondo de Seguro de Depósitos" totaled S/116,284 and S/115,637, respectively.

As of March 31, 2022 and December 31, 2021, of the total balance of deposits and obligations, MiBanco Colombia, account with approximately 237,084.1 million Colombian pesos (equivalent to S/233.3 million) and 224,078.1 million Colombian pesos (equivalent to S/219.8 million), respectively, are secured by the Colombian "Financial Institutions Guarantee Fund" (Fogafín, for its Spanish acronym). At said dates, maximum amount of coverage per depositor recognized by "Fogafín" totaled 50,000,000.0 Colombian pesos (equivalent to S/49,200 and S/49,050, respectively).

Total	2,535,402	3,519,453

As of March 31, 2022 the loans have maturities between April 2022 and December 2031 (between January 2022 and March 2032, as of December 31, 2021) and accrue interest in foreign currency at rates that fluctuate between 0.40 percent and 8.30 percent and accrue interest in soles at rates that fluctuate between 1.20 percent and 7.54 percent (annual interest in foreign currency between 0.40 percent and 8.30 percent and interest in soles at 1.15 percent and 7.53 percent, respectively as of December 31, 2021).

- c) Promotional credit lines represent loans granted by Corporación Financiera de Desarrollo and Fondo de Cooperación para el Desarrollo Social (COFIDE and FONCODES for their Spanish acronyms, respectively) to promote the development of Peru, they mature between April 2022 and January 2032 and bear annual interest in soles at rates that fluctuate between 3.50 percent and 7.60 percent and interest in foreign currency at 7.75 percent as of March 31, 2022 (between January 2022 and January 2032 and with annual interest in soles at rates that fluctuate between 6.00 percent and 7.60 percent and interest in foreign currency at 7.75 percent as of December 31, 2021). These credit lines are secured by a loan portfolio totaling S/3,731.3 million and S/3,592.0 million, as of March 31, 2022 and December 31, 2021, respectively.
- d) The following table presents the maturities of due to banks and correspondents as of March 31, 2022 and December 31, 2021 based on the period remaining to maturity:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Up to 3 months	627,072	1,786,693
From 3 months to 1 year	1,444,944	1,255,291
From 1 to 3 years	1,167,184	1,091,482
From 3 to 5 years	774,311	781,547
More than 5 years	2,253,148	2,196,448
Total	6,266,659	7,111,461

- e) As of March 31, 2022 and December 31, 2021, lines of credit granted by various local and foreign financial institutions, to be used for future operating activities total S/6,266.7 million and S/7,111.5 million, respectively.
- f) Certain debts to banks and correspondents include standard covenants addressing observance of financial ratios, the use of the funds and other administrative matters; which, in Management's opinion, do not limit the Group's operations and have been complied with at the date of the interim condensed consolidated financial statements.

### 16 TECHNICAL RESERVES FOR INSURANCE CLAIMS AND PREMIUMS

a) This item consists of the following:

	As of March 31, 2022				
	Technical reserves for claims	Technical reserves for premiums	Total		
	S/(000)	S/(000)	S/(000)		
Life insurance General insurance	1,674,502 645,351	8,584,566 696,133	10,259,068 1,341,484		
Health insurance	155,727	201,883	357,610		
Total	2,475,580	9,482,582	11,958,162		
	As of December	· 31, 2021			
	Technical reserves for claims	Technical reserves for premiums	Total		
	S/(000)	S/(000)	6/(000)		
	- ( )	G/(GGG)	S/(000)		
Life insurance General insurance Health insurance	1,696,733 714,700 144,147	9,101,456 684,950 192,525	10,798,189 1,399,650 336,672		

As of March 31, 2022, the life insurance technical reserves include the mathematical reserves of income amounting to S/6,420.2 million (S/6,759.7 million as of December 31, 2021). The variation corresponds mainly to rents, flex rent and private rent.

As of March 31, 2022, the variation in technical reserves for claims is mainly due to SCTR, fire and Sisco; and the variation in the technical reserve for premium is mainly due to annuities and individual life.

Insurance claims reserves represent reported claims and an estimate for incurred but unreported claims (IBNR). Reported claims are adjusted on the basis of technical reports received from independent adjusters.

Insurance claims to be paid by reinsurers and co-insurers represents ceded claims, which are presented in "Accounts receivable from reinsurers and coinsurers" of the interim condensed consolidated statement of financial position, See Note 9(b).

As of March 31, 2022, the reserves for direct claims include reserves for IBNR for life, general and health insurance for an amount of S/835.0 million, S/33.0 million and S/116.0 million, respectively (S/825.0 million, S/38.9 million and S/109.9 million, respectively, as of December 31, 2021).

As of March 31, 2022, and in previous years, the differences between the estimates for the incurred and non-reported claims and the settled and pending liquidation claims have not been significant. In the case of general risks and health, retrospective analysis indicates that the amounts accrued are adequate and Management believes that the estimated IBNR reserve is sufficient to cover any liability as of March 31, 2022 and December 31, 2021.

Technical reserves for premiums include reserves for obligations for future benefits under insurance of life and personal accidents in force; and the unearned premium reserves in respect of the portion of premiums written that is allocable to the unexpired portion of the related policy periods of related coverage.

The adjustment of market rates in the pension funds is recorded in other comprehensive incomes, which responds to the fluctuation of the market values of the investments.

International issues maintain certain operating covenants, which, in Management's opinion, the Group has complied with at the dates of the statement of financial position.

- (i) The Bank can redeem the total or part of the notes in any time, having as a penalty an interest rate equal to the Treasury of the United States of America's rate plus 50 basis point.
- (ii) The Bank can redeem all or part of the notes at any date, between October 11, 2021 and December 10, 2024, at a redemption price equal to or greater than: (i) 100 percent of the aggregate principal amount of the notes to be redeemed; and (ii) the sum of the present value of each remaining scheduled payment discounted at interest rate equal to the Treasury of the United States of America's rate plus 20 basis points. From December 11, 2024 onwards, the Bank can redeem the total or part of the notes to a redemption price equal to 100 percent of the aggregate principal amount of the notes to be redeemed.
- (iii) The Bank can redeem the whole or part of the Senior notes between October 17, 2021 and August 16, 2024, at a redemption price equal to or greater than: (i) 100 percent of the aggregate principal amount of the notes, and (ii) the sum of the present value of cash flows discounted at interest rate equivalent to sovereign bonds issued by the government of Perú or other comparable titles plus 25 basis points. As of August 17, 2024, the Bank may redeem all or part of the Senior notes at a redemption price equal to 100.0 percent of the aggregate amount of the principal to be redeemed.
- (iv) These Senior notes can redeem the whole or part mainly by the following ways (i) at any time prior to May 17, 2025, make whole or partial call, at Treasury plus 40 basis points, and (ii) at any time on or after May 17, 2025, at par value.
- (v) This issue is guaranteed by the future collection of electronic payment orders sent to BCP (including foreign branches) through the Society Worldwide Interbank Financial telecommunications, through which the correspondent bank uses the network to places orders of payment to the beneficiary that is not a financial institution.
- (vi) On July 1, 2025, the Bank may redeem all or part of the notes at a redemption price equal to 100 percent of the aggregate amount of the principal of the notes to be redeemed. From now on, the Bank may redeem all or part of the notes at a redemption price equal to the higher of (i) 100 percent of the principal amount of the notes and (ii) the sum of the remaining cashflows discounted at a rate equivalent to the U.S. Treasury interest rate plus 45 basis points.

Through a repurchase offer announced in March 2021, the Bank repurchased US\$88.5 million and exchanged US\$11.0 million from the total US\$294.7 million outstanding amount of "6.125 percent Fixed-to-Floating Rate Subordinated Notes due 2027", which were registered and settled on March 31, 2021. Also, in June 2021, US\$60.6 million were repurchased from the total US\$181.5 million outstanding amount of "6.875 percent Fixed-to-Floating Rate Subordinated Notes due 2026".

On March 29, 2021, the Bank announced its decision to exercise the Make-Whole Redemption option of the entire two subordinated Notes, "6.875 percent Fixed-to-Floating Rate Subordinated Notes due 2026" and "6.125 percent Fixed-to-Floating Rate Subordinated Notes due 2027", whose holders have not accepted. The redemption date for both bonds was effective on April 28, 2021.

On the other hand, effective on March 30, 2021, the Bank issued Subordinated Notes under the Medium-Term Bond Program amounting to US\$500.0 million at a semi-annual rate of 3.25 percent maturing in September 2031 called "3,250 percent Subordinated Fixed-to-Fixed Rate Notes due 2031 (Callable 2026)". As of September 30, 2026, it will be paid a fixed interest rate equal to U.S. Treasury interest rate, comparable to 5 years, plus 245 basis points. On September 30, 2026, the Bank may redeem all or part of the notes at a redemption price equal to 100 percent of the

aggregate amount of the principal of the notes to be redeemed. From now on, the Bank may redeem all or part of the notes at a redemption price equal to the higher of (i) 100 percent of the principal amount of the notes and (ii) the sum of the remaining cashflows discounted at a rate equivalent to the U.S. Treasury interest rate plus 40 basis points.

- (vii) The payment of the principal will take place on the maturity date, or when Mibanco S.A. redeems them, only after a minimum term of 5 years since issuance date.
- b) The table below shows the bonds and notes issued, classified by maturity, without accrued interests:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Up to 3 months	151,104	164,559
From 3 months to 1 year	601,473	692,342
From 1 to 3 years	5,344,974	5,478,658
From 3 to 5 years	4,301,254	4,628,011
More than 5 years	5,567,382	5,980,848
Total	15,966,187	16,944,418

### 18 EQUITY

a) Capital stock -

As of March 31, 2022 and December 31, 2021, a total of 94,382,317 shares have been issued at US\$5 per share.

b) Treasury stock -

We present below the stocks of Credicorp Ltd., that the entities of the Group maintain as of March 31, 2022 and 2021:

(\*) Corresponds to treasury stock that were granted to employees and senior management, for which they have the right to vote; also, these stocks are not vested at said dates. See more detail in Note 20.

During the three-month period ended March 31, 2022 and 2021, the Group purchased 137,604 and 97,951 shares of Credicorp Ltd., respectively, for a total of US\$22.5 million (equivalent to S/83.6 million) and US\$16.1 million (equivalent to S/58.9 million), respectively.

### c) Reserves -

Certain Group's subsidiaries are required to keep a reserve that equals a percentage of paid-in capital (20, 30 or 50 percent, depending on its activities and the country in which production takes place); this reserve must be constituted with annual transfers of not less than 10 percent of net profits. As of March 31, 2022, and December 31, 2021, the balance of this reserves amounts approximately to S/7,426.3 million and S/7,088.6 million, respectively.

At the Board meetings held on February 25, 2021, the decision was made to transfer from "Retained earnings" to "Reserves" the amounts of S/347.0 million.

### d) Dividend distribution -

In the Board of Directors held in August 26, 2021, Credicorp paid cash dividends, net of the effect of treasury shares, for approximately US\$96.5 million (equivalent to approximately S/398.8 million). In this sense, as of December 31, 2021 cash dividend payouts per share for 5.0 soles, dividends were paid on October 7, 2021 at the exchange rate published by the SBS of 4.131 soles. As of March 31, 2022, no dividends have been declared.

In accordance with current Peruvian legislation, there is no restriction for overseas remittance of dividends or the repatriation of foreign investment. The dividends paid by the Peruvian subsidiaries to Credicorp are subject to a 5.0 percent withholding tax.

### e) Regulatory capital -

As of March 31, 2022 and December 31, 2021, the regulatory capital requirement ("patrimonio efectivo" in Peru) applicable to Credicorp subsidiaries engaged in financial services and insurance activities in Peru, determined under the provisions of the Peruvian banking and insurance regulator, SBS, totals approximately S/29,253.9 million and S/29,741.6 million, respectively. At those dates, the Group's regulatory requirement exceeds by approximately S/9,877.1 million and S/10,294.3 million, respectively, the minimum regulatory capital required by the SBS.

### 19 TAX SITUATION

a) Credicorp is not subject to income tax or any taxes on capital gains, equity or property in Bermuda.
 Credicorp's Peruvian Subsidiaries are subject to the Peruvian tax regime.

The income tax rate in Peru as of March 31, 2022 and December 31, 2021 was 29.5 percent of the taxable income after calculating the worker's participation, which is determined using a rate of 5.0 percent.

The income tax rate in Bolivia is 25.0 percent as of March 31, 2022 and December 31, 2021. Financial entities have an additional rate if the ROE exceeds 6.0 percent; in that case, they must consider an additional 25.0 percent, with which the rate would be 50.0 percent. Situation that from the 2021 management, was also established for the brokerage agencies, the investment fund management companies and the insurance entities.

In the case of Chile, tax legislation change in 2020, two new regimes currently in force are established: the general regime and the Pro SME regime, for smaller companies. Credicorp Capital Holding Chile, like all its subsidiaries, is taxed under the general tax regime, whose first category income tax rate for domiciled legal entities remains at 27.0 percent as of March 31, 2022.

On the other hand, natural or legal persons not domiciled in Chile will be subject to a tax called "Additional income tax" whose rates range between 4.0 percent and 35.0 percent, depending on the nature of the rent. Additionally, Chile has signed agreements to avoid double taxation with different countries, so that certain income could be released from withholding taxes or for the use of reduced rates.

In the case of Colombia, according to Law No.2155 of 2021 issued on September 14, 2021, the income tax rate for the year 2022 will be 35.0 percent of taxable income, for financial institutions it will be You must pay some additional points to the income tax and complementary during the following taxable periods:

Financial institutions must pay some additional points to the income tax and complementary during the following taxable periods:

- For the taxable year 2022, 3.0 percent points will be added to the general tax rate, totaling 38.0 percent.
- For the taxable year 2023, 3.0 percent points will be added to the general tax rate, totaling 38.0 percent.
- For the taxable year 2024, 3.0 percent points will be added to the general tax rate, totaling 38.0 percent.
- For the taxable year 2025, 3.0 percent points will be added to the general tax rate, totaling 38.0 percent.

The additional rate will be applicable only to financial institutions that in the corresponding tax year have a taxable income equal to or greater than 120,000 Tax Value Unit ("UVT"), which as of March 31, 2022 is equivalent to a total of S/4.4 million; in this sense, Credicorp Capital Colombia, Credicorp Capital Fiduciaria and MiBanco Colombia must pay income tax taking into consideration the above. In the event that the company receives occasional profits, quoted and established by the National Government in the Tax Statute and that are not subject to income tax, the company must apply a differential rate of 10.0 percent on net profit and expenses associated respectively.

The Tax Reform Law No.2155 of 2021 repeals paragraph 1 of article 115 of the Tax Statute, which would allow from the year 2022 to take 100.0 percent of the industry and commerce tax as a tax discount for income tax, notices and boards. Thus, only 50.0 percent of the industry and commerce tax, notices and boards can be taken as a tax discount.

In addition to the Tax Reform Law No.2155 of 2021, the possibility of reducing the term of finality of the income tax return and complementary for the taxable periods 2022 and 2023 is established as follows:

Increase in net income tax compared to the previous year	Firmness of the declaration
35 percent	6 months
25 percent	12 months

b) Income tax expense comprises:

In other countries

**Total** 

	March 31,

	528,051	290,335	
Deferred -			
Deletted -			
In Peru	101	55,093	

For the three-month period ended

17.849

17,950

546,001

(7,829)

47,264

337,599

In Perú, the variation in current and deferred income tax between the three-month of 2022 and 2021 is mainly due to the fact that during 2022 there is higher accounting profit and lower provisions were made for loans that are not admitted by the tax administration, respectively.

c) The Peruvian Tax Authority has the power to review and, if applicable, make a new determination of the Income Tax calculated by the Peruvian subsidiaries up to four years after the filing date of the statement that contains it. The Income Tax returns of the main subsidiaries open to review by the Tax Authority are as follows:

2016 to 2021
2016 to 2021
2018 to 2021
2018 to 2021
2017 to 2021
2017 to 2021

The Tax Authority concluded the audit of Banco de Crédito del Perú for the years 2014 and 2015, obtaining satisfactory results.

The Bolivian and Chilean Tax Authorities have the power to review and, if applicable, make a new determination for the income tax the subsidiaries to Credicorp located in said countries, upon presentation of their Income Tax declarations. The annual income tax declarations pending examination by the overseas tax authorities are the following:

Banco de Crédito de Bolivia	2016 to 2021
Credicorp Capital Holding Chile	2020 to 2021

The Tax Authority began the inspection of the Income Tax for the year 2019, of the Credicorp Capital Holding Chile, processes that are still are in process.

Given that tax regulations are subject to interpretation by the different Tax Authorities in whose jurisdictions Credicorp's subsidiaries are located, it is not possible to determine as of the current date whether significant additional liabilities may arise from eventual tax inspections in said subsidiaries. Any resulting unpaid taxes, tax penalties or interest that may arise will be recognized as expenses in the year in which they are determined. However, Credicorp's Management, its subsidiaries and legal advisors consider that any increase in the determination of taxes would not have a significant impact on the interim condensed consolidated financial statements as of March 31, 2022.

### 20 SHARE-BASED COMPENSATION PLANS

On March of each year, the Group grants its own shares to certain key employees. The awarded shares are liberated in the three following years for up to 33.3 percent of the shares granted in each of the three previous years. The Group assumes the payment of the related income tax on behalf of its employees, which depend on the country of residence and the annual compensation of the employee.

As of March 31, 2022 and December 31, 2021, the Group has granted 116,626 and 88,507 Credicorp shares, of which 228,377 and 229,523 shares not vested as of March 31, 2022 and December 31, 2021, respectively. During the three-month period ended March 31, 2022 and 2021, the recorded expense amounted to approximately S/27.5 million and S/24.9 million, respectively, see Note 27.

### 21 OFF-BALANCE SHEET ACCOUNTS

a) This item consists of the following:

	As of March 31, 2022 S/(000)	As of December 31, 2021 S/(000)
Contingent credits - indirect loans (b)		
Guarantees and standby letters	18,502,392	20,455,238
Import and export letters of credit	2,694,425	2,459,105
Sub-total, Note 7(b)	21,196,817	22,914,343
Responsibilities under credit line agreements (c)	80,155,277	88,382,322
Total	101,352,094	111,296,665

Reference values of operations with derivatives are recorded in off-balance sheet accounts in the committed currency, as shown in Note 13(c).

b) In the normal course of their business, the Group's banking Subsidiaries are party to transactions with off-balance sheet risk. These transactions expose them to credit risk in addition to the amounts recognized in the interim condensed consolidated statement of financial position.

Credit risk for contingent credits is defined as the possibility of sustaining a loss because one of the parties to a financial instrument fails to comply with the terms of the contract. The risk of credit losses is represented by the contractual amounts specified in the related contracts. The Group applies the same credit policies in making contingent commitments and other obligations as it does for on-balance sheet instruments (Note 7(a)), including the requirement to obtain collateral when it is deemed necessary.

Collateral held varies, but may include deposits in financial institutions, securities or other assets. Many of the contingent transactions reach maturity without any performance being required; therefore, the total committed amounts do not necessarily represent future cash requirements.

c) Lines of credit include consumer loans and other consumer loan facilities (credit card receivables) granted to customers and are cancelable upon related notice to the customer.

## 22 INTEREST, SIMILAR INCOME AND SIMILAR EXPENSES

This item consists of the following:

	For the three-mo period ended March 31,	onth
	2022	2021
	S/(000)	S/(000)

Commissions for salary advance and payment of services	16,721	10,399
Penalty commissions	503	13,818
Others	62,454	49,976
Total	891,031	830,771

## 24 NET (LOSS) GAIN ON SECURITIES

This item consists of the following:

For the three-month period ended March 31,

2022	2021
S/(000)	S/(000)
24,014	29,404
14,211	99,820
(42,555)	(88,543)
(27,858)	5,352
(664)	(341)
(32,852)	45,692
	\$/(000) 24,014 14,211 (42,555) (27,858) (664)

<sup>(</sup>i) It mainly includes the gain of its associated "Entidad Prestadora de Salud" for approximately S/14.7 million during the three-month period ended March 31, 2022 (S/23.4 million during the three-month period ended March 31, 2021).

- (ii) The result on investments at fair value through other comprehensive income is due to the result mainly from the following subsidiaries occurred during the three-month period ended March 31, 2022:
  - Credicorp Capital Colombia S.A. had net gain for approximately S/18.3 million (during the three-month period ended March 31, 2021, net profit for S/19.1 million).
  - Credicorp Capital SAB had net gain for approximately S/1.8 million (during the three-month period ended March 31, 2021, net gain for S/2.3 million).
  - Banco de Crédito del Perú had net gain for approximately S/1.1 million (during the three-month period ended March 31, 2021, net gain for S/43.1 million).
  - Pacifico Compañía De Seguros y Reaseguros S.A had net loss for approximately S/2.0 (during three-month period ended March 31, 2021, net gain for S/11.1 million).
  - ASB Bank Corp. had net loss for approximately S/7.1 million (during the three-month period ended September 30, 2020, net gain for S/13.9 million).
- (iii) The result on financial assets at fair value through profit or loss is due to the result mainly from the following subsidiaries occurred during the three-month period ended March 31, 2022:
  - Credicorp Ltd. had net loss for approximately S/26.9 million (during the three-month period ended March 31, 2021, net loss for S/4.5 million).
  - Credicorp Capital Colombia S.A. had net loss for approximately S/13.1 million (during the three-month period ended March 31, 2021, net loss for S/56.0 million).
  - Banco de Crédito del Perú had net loss for approximately S/8.9 million (during the three-month period ended March 31, 2021, net loss for S/3.4 million).
  - Prima AFP had net loss for approximately S/7.3 million (during the three-month period ended March 31, 2021, net gain for S/2.8 million).
  - Atlantic Security Private Equity General Partner had net gain for approximately S/7.8 million (during the three-month period ended March 31, 2021, net loss for S/1.8 million).
  - ASB Bank Corp. had net gain for approximately S/4 million (during the three-month period ended March 31, 2021, net loss for S/27.1 million).
- (iv) As a result of the assessment of the impairment, the following subsidiaries recognize an impairment loss during the three-month period ended March 31, 2022: (i) S/23.1 million by Pacifico Compañía de Seguros y Reaseguros S.A and (ii) S/5.4 million by Atlantic Security International Financial Services Inc., among others. During the three-month period ended March 31, 2021 the following subsidiaries recognize a recovery: (i) S/2.5 million by Pacifico Compañía de Seguros y Reaseguros S.A and (ii) S/1.3 million by ASB Bank Corp, among others.

# 25 NET PREMIUMS EARNED

a) This item consists of the following:

For the three-month period ended March 31,	Gross written premiums S/(000)	Technical reserve adjustment (*) S/(000)	Total gross written premiums (**) S/(000)	Premiums ceded to reinsurers and co-insurers, net (***) S/(000)	Results of financial assets designated at fair value through profit and loss, note 8 S/(000)	Total Net premiums earned S/(000)
Life insurance	667,879	(156,694)	511,185	(61,386)	(70,504)	379,295

Total	293,989	100.00	266,836	100.00		

(\*) Technical lines include Contractor's All Risk (CAR), Machinery breakdown, All Risk (EAR), Electronic equipment (EE), All Risk Contractor's Equipment (ARCE).

## 26 NET CLAIMS INCURRED FOR LIFE, GENERAL AND HEALTH INSURANCE CONTRACTS

This item consists of the following:

	For the three-month period ended March 31,			
	Life insurance	General insurance	Health insurance	Total
0000	S/(000)	S/(000)	S/(000)	S/(000)
2022				
Gross claims	393,414	88,882	82,885	565,181
Ceded claims	(71,702)	(13,341)	(1,632)	(86,675)
Net insurance claims	321,712	75,541	81,253	478,506
	For the three-r	month period e	nded March 31	
	Life insurance	General insurance	Health insurance	Total
	S/(000)	S/(000)	S/(000)	S/(000)
2021				
Gross claims	575,206	55,451	67,706	698,363
Ceded claims	(66,141)	(8,286)	(583)	(75,010)

As of March 31, 2022, the decrease in net life insurance claims is mainly due to a lower constitution of IBNR in Vida Crédito and AFP for S/56.0 million and S/73.8 million respectively, and a lower loss ratio in COVID-19 cases due to S/39.2 million in Credit Life.

Insurance	8,916	8,274	
Electronic processing	7,693	9,968	
Cleaning	4,506	5,282	
Others	71,459	49,966	
Total	725,539	579,427	

<sup>(</sup>i) The increase is mainly due to higher expenses for IT support, maintenance services and license renewal.

<sup>(</sup>ii) The increase is mainly due to higher marketing and advertising expenses; It is also due to increased investment to attract new customers, campaigns and activities to promote the use of products offered by Tenpo Prepago and Tenpo Technology.

# 29 OTHER INCOME AND EXPENSES

This item consists of the following:

For the three-month
period ended
March 21

	2022	2021
	S/(000)	S/(000)
Other income		
Rental income	11,044	8,014
Gain from sale of loan portfolio	9,323	10,759
Net income from the sale of foreclosed assets	1,601	2,514
Contract resolution impact	888	917
Recoveries of other accounts		
receivable and other assets	585	2,446
Recovery of the provision for		
various risks	_	7,689
Others (i)	124,461	41,652
Total other income	147,902	73,991

# For the three-month period ended March 31,

	2022	2021
	S/(000)	S/(000)
Other expenses		
Provision for sundry risks	17,704	_
Losses due to operational risk	14,349	10,850
Operating expenses due to COVID-19	8,140	14,236
Association in participation	7,691	13,906
Provision for other accounts receivable (ii)	5,101	19,525
Expenses on improvements in building		
for rent	5,088	5,865
Reduction of intangibles due to withdrawals		
and dismissed projects	2,561	_
Donations	635	339
Net loss from the sale of property, furniture		
and equipment	150	1,257
Administrative and tax penalties	61	575
Others	20,696	8,552
Total other expenses	82,176	75,105

- (i) The increase is mainly due to a refund for excess payment of the Tax Income for the years 2014 (S/17.8 millions) and 2015 (S/38.6 millions) to BCP. In addition, the variation is due to the amount recorded by Pacífico Compañía de Seguros y Reaseguros on the release of administrative provisions for S/4.9 million from the previous year and release of additional participations for S/2.7 million from the previous year.
- (ii) The reduction in the variation corresponds mainly to the particular event that occurred in the first quarter of 2021 due to a subrogation of the Chilean stockbroker for US\$4.1 million (equivalent to S/15.2 million), however, for the first quarter of 2022 this event did not occurred.

# 30 EARNING PER SHARE

The net earnings per ordinary share were determined based on the net (loss) income attributable to equity holders of the Group as follows:

For the three-month period

	ended March 31,		
	2022	2021	
Net income attributable to equity holders of Credicorp (in thousands of Soles)	1,136,826	660,798	
Number of stock Ordinary stock, Note 18(a)	94,382,317	94,382,317	
Less - opening balance of treasury stock	(14,850,369)	(14,914,734)	
Acquisition of treasury stock, net	(18,050)	(36,538)	
Weighted average number of ordinary shares for basic earnings	79,513,898	79,431,045	
Plus - dilution effect - stock awards	80,894	126,348	
Weighted average number of ordinary shares adjusted for the effect of dilution	79,594,792	79,557,393	
Basic earnings per share (in Soles) Diluted earnings per share (in Soles)	14.30 14.28	8.32 8.31	

# 31 OPERATING SEGMENTS

In the Credicorp Board of Directors organized the Group's subsidiaries according to the types of financial services provided and the sectors on which they are focused; with the objective of optimizing the management thereof. Next, we present the Group's business lines:

# a) Universal Banking -

Includes the operations related to the granting of various credits and financial instruments to individuals and legal entities, from the segments of wholesale and retail banking, such as the obtaining of funds from the public through deposits and current accounts, obtaining of funding by means of initial public offerings and direct indebtedness with other financial institutions. This business line incorporates the results and balances of the Banco de Crédito del Perú (BCP) and Banco de Crédito de Bolivia (BCB).

#### b) Insurance and Pensions -

- Insurance: includes, mainly, the issue of insurance policies to cover losses in commercial property, transport, marine vessels, automobiles, life, health and pensions, operations carried out through Pacífico Compañía de Seguros y Reaseguros S.A.
- Pensions: provides Management Service of private pension funds to the affiliates, operation carried out from Prima AFP.

# c) Microfinance -

Includes the management of loans, credits, deposits and current accounts of the small and microenterprises: carried out through MiBanco, Banco de la Microempresa S.A. and MiBanco – Banco de la Microempresa de Colombia S.A.

d) Investment Banking and Wealth Management -

Brokerage service and investment management services offered to a broad and diverse clientele, which includes corporations, institutional investors, governments and foundations; also, the structuring and placement of issues in the primary market, as well as the execution and negotiation of transactions in the secondary market. Additionally, it structures securitization processes for corporate customers and manages mutual funds.

All these services are provided through Credicorp Capital Ltd. and subsidiaries; ASB Bank Corp. and the Wealth Management team of BCP.

Management of these business lines is designed to:

- Promote the joint action of our businesses in order to take advantage of the synergies which resulting from the diversification of our portfolio.
- Strengthening our leadership in the financial sector through our growth in new businesses, and the establishment of an investment banking platform available not only to the corporate world, but also to the retail segment, especially to the Small and Medium Enterprise (SME) and Consumer sectors.
- Improve the ongoing search to bring to adapt our business models, processes and procedures into line with best practices worldwide.

The operating results of the Group's new business lines are monitored separately by the Board of Directors and Senior Management on a monthly basis, in order to make decisions regarding the allocation of resources and the evaluation of the performance of each one of the segments. The Chief Operating Decision Maker (CODM) of Credicorp is the Chief Executive Officer (CEO). The performance of the segments is evaluated based on the operating profits or losses and is measured consistently with the operating profits and losses presented in the interim condensed consolidated statement of income.

Financial information by segment is prepared subject to the minimum controls necessary and on a uniform basis, with coherent grouping according to the type of activity and customer. The transfer prices used for determining income and expenses generated among the operating segments are similar to the prices that would be applicable to transactions carried out at arm's length.

None of the income derives from transactions carried out with a single customer or counterparty which is equal to or greater than 10.0 percent or more of the total income of the Group for the first three-month period ended March 31, 2022 and the first three-month period ended March 31, 2021.

(i) The following table presents information recorded in the results and for certain items of the assets corresponding to the Group's reportable segments (in millions of soles):

#### As of March 31, 2022 For the three-month period ended March 31, 2022

## 34 FINANCIAL RISK MANAGEMENT

The Group's activities involve principally the use of financial instruments, including derivatives. It also accepts deposits from customers at both fixed and floating rates, for various periods, and invests these funds in high-quality assets. Additionally, it places these deposits at fixed and variable rates with legal entities and individuals, considering the finance costs and expected profitability.

The Group also trades in financial instruments where it takes positions in traded and over-the-counter instruments, derivatives included, to take advantage of short-term market movements on securities, bonds, currencies and interest rates.

Given the Group's activities, it has a framework for risk appetite, a corner stone of the management. The risk management processes involve continuous identification, measurement, treatment and monitoring. The Group is exposed, principally, to operating risk, credit risk, liquidity risk, market risk, strategic risk and insurance technical risk. Finally, it reports on a consolidated basis the risks to which the Group is exposed.

## a) Risk management structure -

The Board of Directors of the Group and of each subsidiary are ultimately responsible for identifying and controlling risks; however, there are separate independent instances in the major subsidiaries responsible for managing and monitoring risks, as further explained below:

#### (i) Group's Board of Directors -

Credicorp Board of Directors -

The Credicorp Board of Directors is responsible for the overall approach to risk management of Credicorp Ltd., including the approval of its appetite for risk.

Likewise; take knowledge of the level of compliance of the appetite and the level of risk exposure, as well as the relevant improvements in the integral risk management of Grupo Crédito and Subsidiaries of Credicorp (Group).

Grupo Crédito's Board of Directors -

Grupo Crédito's Board of Directors is responsible for the general approach to risk management of the Group's subsidiaries and the approval of the risk appetite levels that it is willing to assume. Furthermore, it approves the guidelines and policies for Integral Risk Management, promotes an organizational culture that emphasizes the importance of risk management, oversees the internal control system and ensures the adequate performance of the Group's regulatory compliance function.

Group Company Boards -

The Board of each company of the Group is responsible for aligning the risk management established by the Board of Grupo Crédito with the context of each one of them. For that, it establishes a framework for risk appetite, policies and guidelines.

# (ii) Credicorp Risk Committee -

Represents the Credicorp Board of Directors, proposes the levels of risk appetite for Credicorp Ltd. Also, it is aware of the level of compliance of the risk appetite and the level of exposure assumed by Grupo Crédito and Credicorp subsidiaries and the relevant improvements in integral management of risks of said entities.

The Committee will be made up of no less than three directors of Credicorp, at least one of which must be independent. Additionally, the Board of Directors may incorporate as a member one or more directors of Credicorp subsidiaries. Likewise, the coordinator of the Committee will be the Credicorp Risk Manager, with the Internal Audit Manager as an observer member (without voice or vote). Finally, the following officials will attend the sessions as guests, according to the agenda of topics to be discussed and at the invitation of the Coordinator: General Manager, Finance Manager, Manager of the Risk Management Division of BCP, and all those people who criteria assist with the development of the session.

# (iii) Grupo Crédito Risk Committee -

Represents the Board of Grupo Crédito in risk management decision-making. Furthermore, proposes to Grupo Crédito's Board of Directors the levels of risk appetite. This Committee defines the strategies used for the adequate management of the different types of risks and the supervision of risk appetite. In addition to it, they establishe principles, policies and general limits.

The Risk Committee is presided by no less than three Board member of Grupo Crédito, at least one of which must be independent. Additionally, the Board of Directors may incorporate as a member one or more directors of the Group. Likewise, the coordinator of the Committee will be the Grupo Crédito Risk Manager, with the Internal Audit Manager as an observer member (without voice or vote). Finally, the following officials will attend the sessions as guests, according to the agenda of topics to be discussed and at the invitation of the Coordinator: General Manager, Finance Manager, Manager of the Risk Management Division of BCP, and all those people who criteria assist with the development of the session.

In addition to effectively managing all the risks, the Grupo Crédito Risk Committee is supported by the following committees which report periodically on all relevant changes or issues relating to the risks being managed:

Corporate credit Risk Committees (retail and non-retail) -

The Corporate credit Risk Committees (retail and non-retail) are responsible for reviewing the tolerance level of the credit risk appetite, the limits of exposure and the actions for the implementation of corrective measures, in case there are deviations. In addition, they propose credit risk management norms and policies within the framework of governance and the organization for the integral management of credit risk. Furthermore, they propose the approval of any changes to the functions described above and important findings to the Grupo Crédito Risk Committee.

Corporate Treasury and ALM (Asset Liability Management) Risk Committee -

The corporate Treasury and ALM Risk Committee are responsible for analyzing and proposing the corporate objectives, guidelines and policies for Treasury Risk Management and ALM of all the companies of the Group. As well as, monitoring the indicators and limits of the Group market risk appetite and each of the companies of the Group. Further, they are responsible of be aware of the actions for the implementation of the corrective measures if there are deviations from appetite levels and risk tolerance assumed by the companies of Group. Furthermore, they are responsible for proposing the approval of any changes in the functions described above and for reporting any finding to the Grupo Crédito Risk Committee.

## Corporate Model Risk Committee -

The Corporate Model Risk Committee is responsible for analyzing and proposing the actions corrections in case there are deviations with respect to the degrees of exposure assumed in the Appetite for Model Risk. Likewise, it proposes the creation and/or modification of the government for model risk management, monitoring compliance with the same. The Model Risk Committee monitors the Group's data and analytical strategy and the health status of the model portfolio. They are also responsible to inform the Committee of Grupo Crédito Risks on exposures, related to model risk, which involve variations in the risk profile.

# Corporate Operational Risk Methodology Committee -

The Corporate Methodological Committee of Operational Risk has as main responsibilities to review the main indicators of Operational Risk of the companies of the Group, as well as the progress of the methodologies deployed for Operational Risk and Business Continuity. Likewise, share best practices regarding the main challenges faced by Group companies.

#### (iv) Central Risk Management of Credicorp -

The Central Risk Management of Credicorp informs the Credicorp Risk Committee of the level of compliance of the risk appetite and the level of exposure assumed by Grupo Crédito and Credicorp subsidiaries. Likewise, it reports the relevant improvements in the integral risk management of Grupo Crédito and Credicorp subsidiaries. In addition, it proposes to the Credicorp Risk Committee the risk appetite levels for Credicorp Ltd.

## (v) Central Risk Management of Grupo Crédito -

The Central Risk Management is responsible for the implementation of policies, procedures, methodologies and the actions to be taken to identify, measure, monitor, mitigate, report and control the different types of risks to which the Group is exposed. In addition, it is responsible for participating in the design and definition of the strategic plans of the business units to ensure that they are aligned within the risk parameters approved by the Grupo Crédito Board of Directors. Likewise, it disseminates the importance of adequate risk management, specifying in each of the units, the role that corresponds to them in the timely identification and definition of the corresponding actions.

The units of the Central Risk Management that manage risk at the corporate level are the following:

## Credit Division -

The Credit Division proposes credit policies and evaluation criteria and credit risk management that the Group assumes with segment customers wholesaler. Evaluate and authorize loan proposals until their autonomy and propose their approval to the higher instances for those that exceed it. These guidelines are established on the basis of the policies set by the Grupo Crédito Board, respecting the laws and regulations in force. In addition, it assesses the evolution of the risk of wholesale clients and identifies problematic situations, taking actions to mitigate or resolve them.

## Risk Management Division -

The Risk Management Division is responsible for ensuring that risk management directives and policies comply with the established by the Board of Directors. In addition, it is responsible for supervising the process of risk management and for coordinating with the companies of Credicorp involved in the whole process, promoting homogeneous risk management and aligned with the best practices. It also has the task of informing Board of Directors regarding: global exposure and by type of risk, as well as the specific exposure of each Group company.

# Retail Banking Risk Division -

The Retail Banking Risk Division is responsible for managing the risk profile of the retail portfolio and developing credit policies that are in accordance with the guidelines and risk levels established by Grupo Crédito's Board of Directors. Likewise, it participates in the definition of products and campaigns aligned to these policies, as well as in the design, optimization and integration of credit evaluation tools and income estimation for credit management.

#### Non-financial Risks Division -

The Non-financial Risks Division is responsible for defining a non-financial risks strategy aligned with the objectives and risk appetite set by the Board of Grupo Crédito. This strategy seeks to strengthen the management process, generate synergies, optimize resources and achieve better results among the units responsible for managing non-financial risks in the Group. Additionally, in order to achieve the objectives defined in the non-financial risk strategy, the Division is responsible for promoting risk culture, developing talent, defining indicators and generating and following-up strategic projects and initiatives.

The Non-Financial Risks Division is made up of the following areas: Cybersecurity Area Management, Corporate Security Area Management, Operational Risk Management Area Management, and the Digital Risk Project Management Office.

#### (vi) Internal Audit Division and Compliance Division -

The Audit Division is in charge of monitoring on an ongoing basis the effectiveness and efficiency of the risk management function in the Group, verifying compliance with regulations, policies, objectives and guidelines set by the Board of Directors. On the other hand, it evaluates sufficiency and integration level of Group's information and database systems. Finally, it ensures that independence is maintained between the functions of the risk management and business units, for each of the Group's companies.

The Corporate Compliance and Ethics Division reports to the Board of Directors and is responsible of providing corporate policies for ensure that Group companies specifically comply with regulations that specified them, and the guidelines established in the Code of Ethics.

#### b) Risk measurement and reporting systems -

The risk is measured according to models and methodologies developed for the management of each type of risk. Risk reports that allow to monitor at the level added and detailed the different types of risks of each company which is exposed. The system provides the facility to meet the appetite review needs by risk requested by the committees and areas described above; as well as comply with regulatory requirements.

# c) Risk mitigation -

Depending on the type of risk, mitigating instruments are used to reduce its exposure, such as guarantees, derivatives, controls and insurance, among others. Furthermore, it has policies linked to risk appetite and established procedures for each type of risk.

The Group actively uses guarantees to reduce its credit risks.

# d) Risk appetite -

Based on corporate risk management, Grupo Crédito's Board of Directors approves the risk appetite framework to define the maximum level of risk that the organization is willing to take as seeks its strategic and financial objectives, maintaining a corporate vision in individual decisions of each entity. This Risk Appetite framework is based on "core" and specific metrics:

Core metrics are intended to preserve the organization's strategic pillars, defined as solvency, liquidity, profit and growth, income stability and balance sheet structure and cybersecurity risks.

Specific metrics objectives are intended to monitor on a qualitative and quantitative basis the various risks, to which the Group is exposed, as well as defining a tolerance threshold of each of those risks, so the risk profile set by the Board is preserved and any risk focus is anticipated on a more granular basis.

Risk appetite is instrumented through the following elements:

- Risk appetite statement: Establishes explicit general principles and the qualitative declarations which complement the risk strategy.
- Metrics scorecards: These are used to define the levels of risk exposure in the different strategic pillars.
- Limits: Allows control over the risk-taking process within the tolerance threshold established by the Board. They also provide accountability for the risk-taking process and define guidelines regarding the target risk profile.
- Government scheme: Seeks to guarantee compliance of the framework through different roles and responsibilities assigned to the units involved.

The appetite is integrated into the processes of strategic and capital guidelines, as well as in the definition of the annual budget, facilitating the strategic decision making of the organization.

# e) Risk concentration -

Concentrations arise when a reduced and representative number of all of the counterparties of the Group are engaged in similar business activities, or activities in the same geographic region, or have similar economic and political conditions among others.

In order to avoid excessive concentrations of risk, the policies and procedures include specific guidelines and limits to guarantee a diversified portfolio.

#### 34.1 Credit risk -

a) The Group takes on exposure to credit risk, which is the probability of suffering losses caused by debtors or counterparties failing to comply with payment obligations in on or off the balance sheet exposures.

Credit risk is the most important risk for the Group's business; therefore, Management carefully manages its exposure to credit risk. Credit exposures arise principally from lending activities that lead to direct loans; they also result from investment activities. There is also credit risk in off-balance sheet financial instruments, such as contingent credits (indirect loans), which expose Credicorp to risks similar to direct loans. Likewise, credit risk arises from derivative financial instruments that present showing positive fair values. Finally, all exposure to credit risk (direct or indirect) is mitigated by the control processes and policies.

As part of managing this type of risk, provisions for impairment of its portfolio are assigned as of the date of the statement of financial position.

Credit risk levels are defined based on risk exposure limits, which are frequently monitored. Said limits are established in relation to one borrower or group of borrowers, geographical and industry segments. Furthermore, the risk limits by product, industry sector and by geographical segment are approved by the Risk Committee of Credicorp.

Exposure to credit risk is managed through regular analysis of the ability of debtors and potential debtors to meet interest and principal repayment obligations and by changing the credit limits when it is appropriate. Other specific control measures are outlined below:

# (i) Collateral -

The Group employs a range of policies and practices to mitigate credit risk. The most traditional of these is collateralization which is common practice. The Group implements guidelines on the acceptability of specific classes of collateral or credit risk mitigation. The main types of collateral obtained are as follows:

- For loans and advances, collateral includes, among others, mortgages on residential properties; liens on business assets such as plants, inventory and accounts receivable; and liens on financial instruments such as debt securities and equity securities.
- For repurchase agreements and securities lending, collateral consists of fixed income instruments, cash and loans.

Long-term loans and financing to corporate entities are generally guaranteed. Loans to micro business generally have no collateral. In order to minimize credit loss, the Group will seek additional collateral from the counterparty as soon as impairment indicators arise.

Collateral held as security for financial assets other than loans is determined by the nature of the instrument. Debt securities, treasury and other eligible bills are generally unsecured, with the exception of assets backed securities and similar instruments, which are secured by portfolios of financial instruments.

Management monitors the market value of collateral, requests additional collateral in accordance with the underlying agreement, and monitors the market value of collateral obtained during its review of the adequacy of the allowance for impairment losses. As part of the Group's policies, the recovered assets are sold and the proceeds of the sale are used to reduce or amortize the outstanding debt. In general, the Group doesn't use recovered assets for its operational purposes.

## (ii) Derivatives -

The amount subject to credit risk is limited to the current and potential fair value of instruments that are favorable to the Group (fair value is positive). In the case of derivatives this is only a small fraction of the contract, or notional values used to express the volume of instruments outstanding. This credit risk exposure is managed as a portion of the total credit limits with customers, together with potential exposures from market movements. Collateral or other security is not usually obtained for this type of risk exposure.

#### (iii) Credit-related commitments -

The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and letters of credit have the same credit risk as direct loans. Documentary and commercial letters of credit - which are written undertakings by the Group on behalf of a customer authorizing a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions - are collateralized by the underlying shipments of goods to which they relate and therefore have less risk than a direct loan. The Group has no mandatory commitments to extend credit.

- b) The maximum exposure to credit risk as of March 31, 2022 and as of December 31, 2021, before the effect of mitigation through any collateral, is the carrying amount of each class of financial assets indicated in Notes 34.10(a), 34.10(b) and the contingent credits detailed in Note 21(a).
- c) Credit risk management for loans -

Credit risk management is mainly based on the rating and scoring internal models of each company of the Group. In Credicorp, quantitative and qualitative analysis are made for each client, regarding their financial position, credit behavior in the financial system and the market in which they operate or are located. This analysis is carried out continuously to characterize the risk profile of each operation and client with a credit position in the Group.

In the Group, a loan is internally classified as past due according to three criteria: the number of days past due based on the contractually agreed due date, the subsidiary and the type of loan. The detail is shown below:

- BCP, MiBanco and Solución Empresa Administradora Hipotecaria internally classify a loan as past due:
  - For corporate, large and medium companies, when it has more than 15 days in arrears.
  - For small and microbusiness when it has more than 30 days in arrears.
  - For overdrafts when it has more than 30 days in arrears.
  - For consumer, mortgage and leasing operations, installments are internally classified as past due when they are between 30 and 90 days in arrears; after 90 days, the pending loan balance is considered past due.
- MiBanco Colombia internally classifies a loan as past due:
  - For commercial loans when it has more than 90 days in arrears.
  - For microbusiness loans when it has more than 60 days in arrears.
  - For consumer loans when it has more than 60 days in arrears.
  - For mortgage loans when it has more than 30 days in arrears.

- ASB Bank Corp. internally classifies a loan as past due when it has 1 or more days in arrears.
- Banco de Crédito de Bolivia internally classifies a loan as past due when it has 30 or more days in arrears.

Estimate of the expected credit loss -

The measurement of the expected credit loss is based on the product of the following risk parameters: (i) probability of default (PD), (ii) loss given default (LGD), and (iii) exposure at default (EAD); discounted at the reporting date, using the effective interest rate. The definition of the parameters is presented below:

 Probability of default (PD): this is a measurement of credit rating given internally to a client, designed to estimate their probability of default within a specific time horizon. The process of obtaining the PD is carried out through scoring and rating tools.

The Group considers that a financial instrument is in default if it meets the following conditions, according to the type of asset:

- Consumer products, credit card and SME: if the client, at some certain point, presents arrears equal to or greater than 60 days and/or has operations that are refinanced, restructured, in pre-judicial, judicial proceedings or written off.
- Mortgage products: if the client, at some certain point, presents arrears equal to or greater than 120 days and/or has operations that are refinanced, restructured, in pre-judicial, judicial proceedings or written off.
- Commercial products: if the client, at some certain point, is in the Collections portfolio, or has a risk classification of Deficient, Doubtful or Loss, or has operations that are refinanced, in pre-judicial, judicial proceedings or written off. Also, a client can be considered as default if it shows signs of significant qualitative impairment.
- Investments: if the instrument has a default rating according to external rating agencies such as Fitch, Standard & Poor's or Moody's, or if it has an indicator of arrears equal to or greater than 90 days. In addition, an issuer can be considered as default if it shows signs of significant qualitative impairment or if it is in default according to the definition for Commercial products. When an issuer is classified as default, all its instruments are also classified as Default, that is, in stage 3.
- Loss given default (LGD): this is a measurement which estimates the severity of the loss that
  would be incurred at the time of the default. It has two approaches in the estimate of the
  severity of the loss, according to the stage of the client:
  - LGD workout: this is the real loss of the clients that arrived at the stage of default. The
    recoveries and costs of each one of the operations are used to calculate this parameter
    (includes open and closed recovery processes).
  - LGD ELBE (expected loss best estimate): this is the loss of the contracts in a default situation based on the time in arrears of the operation (the longer the operation is in default, the greater will be the loss).
- Exposure at Default (EAD): this is a measurement which estimates the exposure at the time of the client's default, considering changes in future exposure, for example, in the case of prepayments and/or greater utilization of unused credit lines.

The estimate of the risk parameters considers information regarding the actual conditions, as well as the projections of future macroeconomic events and conditions in three scenarios (base, optimistic and pessimistic), which are weighted to obtain the expected credit loss.

The fundamental difference between the expected credit loss of a loan allocated in stage 1 or stage 2 is the PD's time horizon. The estimates in stage 1 use a PD with a maximum time horizon of 12 months, while those in stage 2 use a PD measured for the remaining lifetime of the instrument. The estimates in stage 3 are carried out based on an LGD "best estimate".

For those portfolios that are not material and/or do not have specific credit scoring models, the option was to extrapolate the expected credit loss ratio of portfolios with comparable characteristics.

During the first quarter of 2022, no relevant methodological calibrations were made in the PD or LGD internal credit risk models.

#### Prospective information -

The measurement of the expected credit loss for each stage and the evaluation of significant increase in credit risk consider information on previous events and current conditions, as well as reasonable projections based on future events and economic conditions.

For the estimate of the risk parameters (PD, LGD, EAD), used in the calculation of the expected credit loss in stages 1 and 2, the significance of the macroeconomic variables (or their variations) that have the greatest influence on each portfolio was tested. Each macroeconomic scenario used in the estimate of the expected credit loss considers projections of relevant macroeconomic variables, such as the gross domestic product (GDP), terms of trade, inflation rate, among others, for a period of 3 years and a long-term projection.

The expected credit loss for stages 1, 2 and 3 is a weighted estimate that considers three future macroeconomic scenarios (base, optimistic and pessimistic). These scenarios, as well as the probability of occurrence of each one, are projections provided by the internal team of Economic Studies and approved by the Senior Management. The scenario design is revised quarterly. All the scenarios considered apply to the portfolios subject to expected credit loss with the same probabilities.

Changes from one stage to another -

The classification of an instrument as stage 1 or stage 2 depends on the concept of "significant increase in credit risk" at the reporting date compared to the origin date. This classification is updated monthly. As the IFRS 9 states, this classification depends on the following criteria:

- An account is classified in stage 2 if it has more than 30 days in arrears.
- Additionally, significant risk thresholds were established based on absolute and relative thresholds that depend on the risk level in which the instrument was originated. The thresholds differ for each of the portfolios considered.
- Additional qualitative reviews are carried out based on the risk segmentation used in the management of Retail Banking and an individual review is carried out in Wholesale Banking.

Additionally, all those accounts classified as Default at the reporting date, according to the definition used by the Group, are considered as stage 3.

Evaluations of significant increase in credit risk from initial recognition and credit impairment are carried out independently on each reporting date. Assets can be moved in both directions from one stage to another; in this sense, a financial asset that migrated to stage 2 will return to stage 1, if its credit risk did not increase significantly from its initial recognition until a subsequent reporting period. Likewise, an asset that is in stage 3 will return to stage 2 if the asset is no longer considered to be impaired.

# Expected life -

For the instruments in stage 2 or 3, the allowance for loan losses will cover the expected credit loss during the expected time of the remaining lifetime of the instrument. For most instruments, the expected life is limited to the remaining contractual life, adjusted by expected anticipated payments. In the case of revolving products, a statistical analysis was carried out to determine what would be the expected life period.

The following is a summary of the direct loans classified into three important groups and their respective allowance for loan losses, for each type of loan. Impaired loans are loans in default that are allocated in stage 3. Additionally, it should be noted that, in accordance with IFRS 7, the entire balance of the loan is considered past due when the debtor has failed to make a payment at its contractual maturity.

- (i) Loans neither past due nor impaired, which comprise those direct loans which currently do not have characteristics of delinquency and which are not in default.(ii) Past due but not impaired loans, which comprise all the direct loans of clients that are not in default but have failed to make a payment at the contractual maturity, according to the IFRS 7.
- (iii) Impaired loans, those direct loans considered to be in stage 3 or default, as detailed in Note 34.1(c).

The general explanation on variations in the allowance for loan losses is presented in Note 7(b).

At Credicorp, we separate renegotiated loans into two groups, focusing on operations that have suffered a significant increase in credit risk since their disbursement, which has generated modifications to the original loan agreement. Both groups are defined below:

- Refinanced loans: are those loans that have undergone modifications in the initial loan agreement (term and interest rate), according to the accounting definition.
- Renegotiated loans due to the COVID-19 pandemic: are those loans for which, due to the pandemic, the SBS and other local regulators have established that certain benefits be granted, and that Credicorp has also voluntarily granted to its clients (grace periods, debt consolidation, etc.), which were not in the initial credit agreements.

Below is the amount of gross portfolio balance and allowance for loan losses for Credicorp's renegotiated loans. The presentation is made for each of the two groups defined above and by opening the balances by stage. It should be noted that for the construction of the tables, the information of the three subsidiaries that concentrate more than 95.0 percent of the balance of renegotiated loans (BCP, Mibanco and BCB) has been considered.

As of March 31, 2022, and December 31, 2021, renegotiated loans and their expected credit loss are composed as follows:

	As of March 31, 2022	2	As of December 31, 2021

The breakdown of direct loans classified by maturity is shown below, according to the following criteria:

- i) Current loans, which comprise those direct loans which do not currently have characteristics of delinquency, nor are they in default or stage 3, according to the rules of IFRS 9.
- ii) Current but impaired loans, which comprise those direct loans which do not currently have characteristics of delinquency, but are in default or stage 3, according to IFRS 9.
- Loans with delays in payments of one day or more but not considered internal overdue loans, which comprise those direct loans of clients that have failed to make a payment at its contractual maturity, that is, with at least one day past due; however, the days of delinquency are insufficient to be considered as past due under the Group's internal criteria.
- iv) Internal overdue loans, which comprise past due loans under internal criteria.

The sum of the following concepts reflects the totality of past due loans consistent with IFRS 7: (i) loans with delays in payments of one day or more but not considered internal overdue loans, and (ii) internal overdue loans.

	As of March 3	1, 2022				As of December 31, 2021

The expected credit loss for direct loans, indirect loans and due from customers on banker's acceptances is a weighted estimate of three macroeconomic scenarios: base, optimistic and pessimistic, that are based on macroeconomic projections provided by the internal team of Economic Studies and approved by Senior Management. In each scenario, the Group bases itself on a wide variety of prospective information such as economic inputs, including: the growth of the gross domestic product (GDP), terms of trade, inflation rate, among others.

#### Macroeconomic scenario -

The expected credit loss is a weighted estimate of three macroeconomic scenarios: base, optimistic and pessimistic, that are calculated with macroeconomic projections provided by the internal team of Economic Studies and approved by the Senior Management. The local and international information flows available during the analysis period are used to feed projections, which reflect the fact that Peru is a small and open economy, and in this context approximately 60.0 percent of the volatility in economic growth is driven by external factors, including terms of trade, the growth of Peru's trading partners and the external interest rates. Information on each of these factors is gathered to construct each scenario for the next three years.

The variables mentioned above, together with local variables (fiscal and monetary variables), are incorporated in the economic models. Two types of models are used in this regard:

- Structural projection model.
- ii) Financial programming model.

The first is a dynamic stochastic general equilibrium model, which is constructed with expectations. The second is built with the main identities of national accounts in accordance with the financial programming methodology designed by the IMF (International Monetary Fund) and the methodologies used by a battery of econometric models.

Through this process, we obtain figures for GDP growth, inflation, exchange rate and other variables for the years 2022, 2023 and 2024. We maintain our expectation that the Peruvian economy will grow around 2.5 percent this year, but risks are shifting to the downside due to the events in Ukraine. The negative impacts from the Russian invasion of Ukraine will be mitigated by:

- Lagged domestic consumption (versus 2019 pre-pandemic levels) in labor-intensive sectors such as transportation and storage, hotels, accommodation, restaurants, entertainment, and services to companies. This contained consumption could add about 1 percentage point to growth this year.
- ii) Also, the start-up of new copper mining projects (e.g., Quellaveco, Mina Justa and the Toromocho expansion) will contribute 0.7 percentage point to 2022 growth amid higher commodity prices.
- iii) Finally, it is worth mentioning that the most recent indicators of economic activity have continued to come in slightly better than expected. If the seasonally adjusted GDP is held constant at the level observed in January 2022 during the rest of the year, it would grow by around 2.7 percent in 2022.

For 2023 and 2024, we also expect an expansion of 2.5 percent in line with a normalization of local and global activity, along with consumption habits. A gradual recovery in private investment is also expected.

Regarding the probabilities of each scenario, probabilities of 50.0 percent, 25.0 percent and 25.0 percent were considered for the base, optimistic and pessimistic scenarios, respectively, as of March 31, 2022 (60.0 percent, 30.0 percent, and 10.0 percent, respectively, as of December 31, 2021). The expected value of the three GDP projections gives us a rebound of around 2.5 percent in 2022. The probabilities assigned to each scenario and projection year are validated through a fan chart analysis, which uses a probability function to identify and analyze:

- The central tendency of the projections.
- ii) The dispersion that is expected around this value.
- iii) The values that are higher or lower than the central value that are more or less probable.

The following table provides a comparison between the carrying amount of the allowance for loan losses for direct and indirect loans and its estimation under three scenarios: base, optimistic and pessimistic.

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Carrying amount	8,851,835	9,071,011
Scenarios:		
Optimistic	8,786,638	9,014,409
Base Case	8,842,642	9,078,873
Pessimistic	8,935,418	9,173,730

d) Credit risk management on reverse repurchase agreements and securities borrowing -

Most of these operations are performed by Credicorp Capital. The Group has implemented credit limits for each counterparty and most of transactions are collateralized with investment grade financial instruments and financial instruments issued by Governments.

e) Credit risk management on investments -

The Group evaluates the credit risk identified of each of the investments, disclosing the risk rating granted to them by a risk rating agency. For investments traded in Peru, risk ratings used are those provided by the three most prestigious Peruvian rating agencies (authorized by Peruvian regulator) and for investments traded abroad, the risk-ratings used are those provided by the three most prestigious international rating agencies. On September 1, 2021, one of these rating agencies placed Peru's rating on stable outlook.

In the event that any subsidiary uses a risk-rating prepared by any other risk rating agency, said risk-ratings are standardized with those provided by the above-mentioned institutions.

The following table shows the analysis of the risk-rating of the investments, provided by the institutions referred to above:

	As of March 31,	2022	As of December	r 31, 2021

<sup>(\*)</sup> It includes non-trading investments that did not pass SPPI test.

(\*\*) OCI: Other comprehensive income.

(\*\*\*) Correspond to instruments issued by the Development Bank of Latin America (formerly CAF) and by the Inter-American Development Bank (IDB).

g) Offsetting financial assets and liabilities -

The disclosures set out in the tables below include financial assets and liabilities that:

- Are offset in the Group's interim condensed consolidated statement of financial position; or
- Are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments, irrespective of whether they are offset in the interim condensed consolidated statement of financial position.

Similar agreements include derivative clearing agreements, master repurchase agreements, and master securities lending agreements. Similar financial instruments include derivatives, accounts receivable from reverse repurchase agreements and securities borrowing, payables from repurchase agreements and securities lending and other financial assets and liabilities. Financial instruments such as loans and deposits are not disclosed in the tables below because they are not offset in the statement of financial position.

The offsetting framework contract issued by the International Swaps and Derivatives Association Inc. ("ISDA") and similar master offsetting arrangements do not meet the criteria for offsetting in the statement of financial position, because said agreements were created in order for both parties to have an enforceable offsetting right in cases of default, insolvency or bankruptcy of the Group or the counterparties or following other predetermined events. In addition, the Group and its counterparties do not intend to settle said instruments on a net basis or to realize the assets and settle the liabilities simultaneously.

The Group receives and gives collateral in the form of cash and trading securities in respect of the following transactions:

- Derivatives;
- Accounts receivable from reverse repurchase agreements and securities borrowing;
- Payables from repurchase agreements and securities lending; and
- Other financial assets and liabilities.

Such collateral adheres to standard industry terms including, when appropriate, an ISDA Credit Support Annex. This means that securities received/given as collateral can be pledged or sold during the term of the transaction but have to be returned on maturity of the transaction. The terms also give each party the right to terminate the related transactions upon the counterparty's failure to return the respective collateral.

#### 34.2 Market risk -

The Group has exposure to market risk, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rates, currency, commodities and equity products; all of which are exposed to general and specific market movements and changes in the level of volatility of prices such as interest rates, credit spreads, foreign exchange rates and equity prices. Due to the order of the Group's current activities, commodity price risk has not been approved, so this type of instrument is not agreed.

The Group separates exposures to market risk in two groups: (i) those that arise from value fluctuation of trading portfolios recognized at fair value through profit or loss due to movements of market rates or prices (Trading Book) and (ii) those that arise from changes in the structural positions of non-trading portfolios due to movements of the interest rates, prices and foreign exchange ratios (Banking Book) and that are recorded at amortized cost and at fair value with changes in other comprehensive income, this is due to movements in interest rates, prices and currency exchange rates.

The risks that trading portfolios face are managed through Value at Risk (VaR) historical simulation techniques; while non-trading portfolios (Banking Book) are monitored using rate sensitivity metrics, which are a part of Asset and Liability Management (ALM).

# a) Trading Book -

The trading book is characterized for having liquid positions in stocks, bonds, foreign currencies and derivatives, arising from market-making transactions where the Group acts as principal with the customers or with the market. This portfolio includes investments and derivatives classified by Management as held for trading.

#### (i) Value at Risk (VaR) -

The Group applies the VaR approach to its trading portfolio to estimate the market risk of the main positions held and the maximum losses that are expected, based upon a number of assumptions for various changes in market conditions and considering the risk appetite of the subsidiary.

Daily calculation of VaR is a statistically-based estimate of the maximum potential loss on the current portfolio from adverse market movements. VaR expresses the "maximum" amount the Group might lose, but only to a certain level of confidence (99 percent). There is therefore a specified statistical probability (1 percent) that actual loss could be greater than the VaR estimate. The VaR model assumes a certain "holding period" until positions can be closed (1 - 10 days).

The time horizon used to calculate VaR is one day; however, the one-day VAR is amplified to a 10-day time frame and calculated multiplying the one-day VaR by the square root of 10. This adjustment will be accurate only if the changes in the portfolio in the following days have a normal distribution independent and identically distributed; because of that, the result is multiplied by a non-normality adjustment factor. The limits and consumptions of the VaR are established on the basis of the risk appetite and the trading strategies of each subsidiary.

The assessment of portfolio movements has been based on annual historical information and 153 market risk factors, which are detailed below: 40 market curves, 93 stock prices, 16 mutual fund values and 4 series of volatility.

The Group directly applies these historical changes in rates to each position in its current portfolio (method known as historical simulation).

The Group Management considers that the market risk factors, incorporated in their VaR model, are adequate to measure the market risk to which its trading portfolio is exposed.

The use of this approach does not prevent losses outside of these limits in the event of more significant market movements. Losses exceeding the VaR figure may occur, on average under normal market conditions, not more than once every hundred days.

VaR limits have been established to control and keep track of all the risks taken. These risks arise from the size of the positions and/or the volatility of the risk factors embedded in each financial instrument. Regular reports are prepared for the Treasury Risk Committee and ALM, the Risk Management Committee and Senior Management.

VaR results are used to generate economic capital estimates by market risk, which are periodically monitored and are part of the overall risk appetite of each subsidiary. Furthermore, at Group level, there is also a limit to the risk appetite of the trading portfolio, which is monitored and informed to the Treasury Risks and ALM Corporate Committee.

In VaR calculation, the effects of the exchange rate are not included because said effects are measured in the net monetary position, see note 34.2(b)(ii).

The Group's VaR showed a decrease at March 31, 2022, explained by a lower Interest Rate risk due to a lower volatility in interest rates with regard to the beginning of COVID-19 pandemic and a decrease in the Fixed Income position. The VaR remains contained within the limits of the risk appetite established by the Risk Management of each subsidiary.

As of March 31, 2022, and December 31, 2021, the Group's VaR by risk type is as follows:

	As of March 31, 2022	As of December 31, 2021
	S/(000)	S/(000)
Interest rate risk	24,314	35,721
Price risk	4,480	4,637
Volatility risk	2,805	2,662
Diversification effect	(7,192)	(4,916)
Consolidated VaR by type of risk	24,407	38,104

In VaR calculation, financial instruments from the trading book were taken.

On the other hand, the instruments recorded as fair values through profit or loss are not part of the selling business model and are considered as part of the sensitivity analysis of rates in the next section. See the chart of sensitivity of earnings at risk, net economic value and price sensitivity.

#### b) Banking Book -

Non-trading portfolios which comprise the Banking Book are exposed to different risks, given that they are sensitive to market rate movements, which could bring about a deterioration in the value of assets compared to liabilities and hence to a reduction of their net worth.

#### (i) Interest rate risk -

The Banking Book-related interest rate risk arises from eventual changes in interest rates that may adversely affect the expected gains (risk gains) or market value of financial assets and liabilities reported on the balance sheet (net economic value). The Group assumes the exposure to the interest rate risk that may affect their fair value as well as the cash flow risk of future assets and liabilities.

The Risk Committee sets the guidelines regarding the level of unmatched repricing of interest rates that can be tolerated, which is periodically monitored through ALCO.

Corporate policies include guidelines for the management of the Group's exposure to the interest rate risk. These guidelines are implemented considering the features of each segment of business in which the Group entities operate.

In this regard, Group companies that are exposed to the interest rate risk are those that have yields based on interest, such as credits, investments and technical reserves. Interest rate risk management in BCP, BCB, MiBanco, MiBanco Colombia, ASB Bank Corp and Pacífico Seguros is carried out by performing a repricing gap analysis, sensitivity analysis of the financial margin (GER) and sensitivity analysis of the net economic value (VEN). These calculations consider different rate shocks in stress scenarios.

# Analysis of repricing gap -

The repricing gap analysis is intended to measure the risk exposure of interest rate for repricing periods, in which both balance and out of balance assets and liabilities are grouped. This allows identifying those sections in which the rate variations would have a potential impact.

The table below summarizes the Group's exposure to interest rate risks. It includes the Group's financial instruments at carrying amounts, categorized by the earlier of contractual re-pricing or maturity dates, what occurs first:

	As of March 31, 2022						
	Up to 1 month	1 to 3 months	3 to 12 months	1 to 5 years	More than 5 years	Non-interest bearing	Total

Investments for trading purposes are not considered (investments at fair value through profit or loss and trading derivatives), because these instruments are part of the trading book and the Value at Risk methodology is used to measure market risks.

Sensitivity to changes in interest rates -

The sensitivity analysis of a reasonable possible change in interest rates on the banking book comprises an assessment of the sensitivity of the financial margins that seeks to measure the potential changes in the interest accruals over a period of time and the expected movement of the interest rate curves, as well as the sensibility of the net economic value, which is a long-term metric measured as the difference arising between the Net Economic Value of assets and liabilities before and after a variation in interest rates.

The sensitivity of the financial margin is the effect of the assumed changes in interest rates on the net financial interest income before income tax and non-controlling interest for one year, based on non-trading financial assets and financial liabilities held as of March 31, 2022 and December 31, 2021, including the effect of derivative instruments.

The sensitivity of the Net Economic Value is calculated by reassessing the financial assets and liabilities sensitive to rates, except for the trading instruments, including the effect of any associated hedge, and derivative instruments designated as a cash flow hedge. Regarding rate risk management, no distinction is made by accounting category for the investments that are considered in these calculations.

The results of the sensitivity analysis regarding changes in interest rates at March 31, 2022 and December 31, 2021 are presented below:

As of March 31, 2022

Currency Changes in basis points			Sensitivity of net profit		Sensitivity of Net Economic Value		
			S/(000)		S/(000	))	
Soles	+/-	50	+/-	56,613	-/+	326,527

U.S. Dollar	+/-	150	+/-	346,128	+/-	1,240,463

The interest rate sensitivities set out in the table above are only illustrative and are based on simplified scenarios. The figures represent the effect of the pro-forma movements in the net interest income based on the projected yield curve scenarios and the Group's current interest rate risk profile. This effect, however, does not incorporate actions that would be taken by Management to mitigate the impact of this interest rate risk.

The Group seeks proactively to change the interest rate risk profile to minimize losses and optimize net revenues. The projections above also assume that the interest rate of all maturities moves by the same amount and, therefore, do not reflect the potential impact on net interest income of some rates changing while others remain unchanged.

As of March 31, 2022 and December 31, 2021, investments in equity securities and funds that are non-trading, recorded at fair value through other comprehensive income and at fair value through profit or loss, respectively, are not considered as comprising investment securities for interest rate sensitivity calculation purposes; however, a 10, 25 and 30 percent of changes in market prices is conducted to these price-sensitivity securities.

The market price sensitivity tests as of March 31, 2022 and December 31, 2021 are presented below:

## (ii) Foreign currency exchange risk -

The Group is exposed to fluctuations in foreign currency exchange rates, which impact net open monetary positions and equity positions in a different currency than the group's functional currency.

The group's monetary position is made up of the net open position of monetary assets, monetary liabilities and off-balance sheet items expressed in foreign currency for which the entity itself assumes the risk; as well as the equity position generated by the investment in the group's subsidiaries whose functional currency is different from soles. In the first case, any appreciation/depreciation of the foreign currency would affect the consolidated income statement, on the contrary, in the case of the equity position, any appreciation/depreciation of the foreign currency will be recognized in other comprehensive income.

The Group manages foreign currency exchange risk, which affects the income statement, by monitoring and controlling currency positions exposed to movements in exchange rates. The market risk units of each subsidiary establish limits for said positions, which are approved by their own committees, and monitor and follow up the limits considering their foreign exchange trading positions, their most structural foreign exchange positions, as well as their sensitivities. Additionally, there is a monetary position limit at the Credicorp level, which is monitored and reported to the Group's Risk Committee.

On the other hand, the Group manages foreign currency exchange risk whose fluctuation is recognized in other comprehensive income, monitoring and controlling equity positions and their sensitivities, which are reported to the Group's Risk Committee.

Net foreign exchange gains/losses recognized in the consolidated statement of income are disclosed in the following items:

- Net gain on foreign exchange transactions.
- Net gain on speculative derivatives.
- Net gain from exchange difference.

As of March 31, 2022, the foreign currency in which the group has the greatest exposure is the U.S. dollar. The free market exchange rate for purchase and sale transactions of each U.S. dollar as of March 31, 2022 was S/3.698 (S/3.987 as of December 31, 2021).

Foreign currency transactions are made at the free market exchange rates of the countries where Credicorp's Subsidiaries are established. As of March 31, 2022 and December 31, 2021, the Group's assets and liabilities by currencies were as follows:

	As of March 31, 2	2022		As of December 31, 2021				
	Other				_			
	U.S. Dollar	currencies	Total	U.S. Dollar	currencies	Total		
	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)		
Total monetary assets	72,225,243	288,490	72,513,733	79,005,337	503,809	79,509,146		
Total monetary liabilities	(78,118,064)	(111,808)	(78,229,872)	(81,716,408)	(415,951)	(82,132,359)		
	(5,892,821)	176,682	(5,716,139)	(2,711,071)	87,858	(2,623,213)		
Currency derivatives	5,567,262	(82,075)	5,485,187	2,142,654	(55,696)	2,086,958		
Accounting hedge (investment abroad) (*)	846,206	-	846,206	912,337	-	912,337		
Net monetary position with effect on consolidated statement of income	520,647	94,607	615,254	343,920	32,162	376,082		
Net monetary position with effect on equity	857,291	1,851,550	2,708,841	1,021,603	1,864,335	2,885,938		
Net monetary position	1,377,938	1,946,157	3,324,095	1,365,523	1,896,497	3,262,020		

The monetary position with effect on equity in other currencies is mainly made up of the equity of subsidiaries in bolivianos for S/879.4 million, in Colombian pesos for S/639.5 million and, in Chilean pesos for S/331.7 million, among other minors.

<sup>(\*)</sup> An accounting hedge of net investment abroad was carried out where part of our liability position in dollars related to the balance of the caption "bonds and notes issued", see Note 17(iv), was designated as cover our permanent investment in Atlantic Security Holding

The following tables show the sensitivity analysis of the main currencies to which the Group is exposed and which affect the consolidated income statement and other comprehensive income as of March 31, 2022 and December 31, 2021. The analysis determines the effect of a reasonably possible variation of the exchange rate against the sun for each of the currencies independently, considering all other variables constant. A negative amount shows a potential net reduction in the consolidated income statement and other comprehensive income, while a positive amount reflects a potential increase.

## Change in rates with effect on consolidated results

Currency rate sensitivity	Change in currency rates	As of March 31, 2022	As of December 31,2021		
	%	S/(000)	S/(000)		
Depreciation -					
Sol in relation to U.S. dollar	5	24,793	16,377		
Sol in relation to U.S. dollar	10	47,332	31,265		
Appreaciation					
Sol in relation to U.S. dollar	5	(27,402)	(18,101)		
Sol in relation to U.S. dollar	10	(57,850)	(38,213)		

The following is the sensitivity analysis of the foreign exchange position with effect in other comprehensive income, being the main currencies of exposure: U.S. dollar, Boliviano, Colombian Peso and Chilean Peso. This analysis is shown as of March 31, 2022 and December 31, 2021:

Currency rate sensitivity	Change in currency rates	As of March 31, 2022	As of December 31,2021
	%	S/(000)	S/(000)

Sol in relation to Chilean peso	10	(36,854)	(33,820)		

## 34.3 Liquidity risk -

Liquidity risk is the risk that the Group is unable to meet its short-term payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. In this sense, the company that is facing a liquidity crisis would be failing to comply with the obligations to pay depositors and with commitments to lend or satisfy other operational cash needs.

The Group is exposed to daily cash requirements, interbank deposits, current accounts, time deposits, use of loans, guarantees and other requirements. The Management of the Group's subsidiaries establishes limits for the minimum funds amount available to cover such cash withdrawals and on the minimum level of inter-bank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand. Sources of liquidity are regularly reviewed by the corresponding risk teams to maintain a wide diversification by currency, geography, type of funding, provider, producer and term.

The procedure to control the mismatching of the maturities and interest rates of assets and liabilities is fundamental to the management of the Group. It is unusual for banks to be completely matched, as transacted business is often based on uncertain terms and of different types. An unmatched position potentially enhances profitability, but also increases liquidity risk, which generates exposure to potential losses.

Maturities of assets and liabilities and the ability to replace them, at an acceptable cost are important factors in assessing the liquidity of the Group.

A mismatch, in maturity of long-term illiquid assets against short-term liabilities, exposes the interim condensed consolidated statement of financial position to risks related both to rollover and to interest rates. If liquid assets do not cover maturing debts, an interim condensed consolidated statement of financial position is vulnerable to a rollover risk. Furthermore, a sharp increase in interest rates can dramatically increase the cost of rolling over short-term liabilities, leading to a rapid increase in debt cost. The contractual-maturity gap report is useful in showing liquidity characteristics.

Corporate policies have been implemented for liquidity risk management by the Group. These policies are consistent with the particular characteristics of each operating segment in which each of the Group companies operate. Risk Management heads set up limits and autonomy models to determine the adequate liquidity indicators to be managed.

### **Commercial banking and Microfinance:**

Liquidity risk exposure in BCP, BCB, MiBanco and MiBanco Colombia is based on indicators such as the Internal Liquidity Coverage Ratio (RCLI, the Spanish acronym) which measures the amount of liquid assets available to meet cash outflows needs within a given stress scenario for a period of 30 days and the Internal Ratio of Stable Net Funding (RFNEI, the Spanish acronym), which is intended to guarantee that long-term assets are financed at least with a minimum number of stable liabilities within a prolonged liquidity crisis scenario and works as a minimum compliance mechanism that supplements the RCLI. The core limits of these indicators are 100 percent and any excess are presented in the Credicorp Treasury Risk Committee, Credicorp Risk Committee and the Assets Liabilities Committee (ALCO) of the respective subsidiary.

#### **Insurances and Pensions:**

<u>Insurances</u>: Liquidity risk management in Pacífico Seguros follows a particular approach given the nature of the business. For annually renewable businesses, mainly general insurance, the emphasis of liquidity is focused on the quick availability of resources in the event of a systemic event (e.g. earthquake); for this purpose, there are minimum investment indicators in place relating to local cash/time deposits and foreign fixed-income instruments of high quality and liquidity.

For long-term businesses such as Pacífico Seguros, given the nature of the products offered and the contractual relationship with customers (the liquidity risk is not material); the emphasis is on maintaining sufficient flow of assets and matching their maturities with maturities of obligations (mathematical technical reserves); for this purpose there are indicators that measure the asset/liability sufficiency and adequacy as well as calculations or economic capital subject to interest rate risk, this last under the methodology of Credicorp.

<u>Pensions</u>: Liquidity risk management in AFP Prima is carried out in a differentiated manner between the fund administrator and the funds being managed. Liquidity management regarding the fund administrator is focused on hedge meeting periodic operating expense needs, which are supported with the collection of commissions. The fund administering entity does not record unexpected outflows of liquidity.

#### Investment banking:

Liquidity risk in the Credicorp Capital Ltd and subsidiaries principally affects the security brokerage. In managing this risk, limits of use of liquidity have been established as well as mismatching by dealing desk; follow-up on liquidity is performed on a daily basis for a short-term horizon covering the coming settlements. If short-term unmatched maturities are identified, repos are used. On the other hand, structural liquidity risk of Credicorp Capital is not significant given the low levels of debt, which is monitored regularly using financial planning tools.

In the case of ASB Bank Corp, the risk liquidity management performs through indicators such as Internal Liquidity Coverage Ratio (RCLI, the Spanish acronym) and the Internal Ratio of Stable Net Funding (RFNEI, the Spanish acronym) with the core limits of 100 percent and any excess is presented in the Credicorp Treasury Risk Committee, Credicorp Risk Committee and the Assets Liabilities Committee (ALCO) of the respective subsidiary.

Companies perform a liquidity risk management using the liquidity Gap or contractual maturity Gap.

The table below presents the cash flows payable by the Group by remaining contractual maturities (including future interest payments) at the date of the interim condensed consolidated statement of financial position. The amounts disclosed in the table are the contractual undiscounted cash flows:

	As of March 31, 2022					As of December 31, 2021

#### 34.4 Operational risk -

Operational risk is the possibility of the occurrence of losses arising from inadequate processes, human error, failure of information technology, relations with third parties or external events. Operational risks can, lead to financial losses and have legal or regulatory compliance consequences, but exclude strategic or reputational risk (with the exception of companies under Colombian regulations, where reputational risk is included in operational risk).

Operational risks are grouped into internal fraud, external fraud, labor relations and job security, relations with customers, business products and practices, damages to material assets, business and systems interruption, and failures in process execution, delivery and management of processes.

One of the Group's pillars is to develop an efficient risk culture, and to achieve this, it records operational risks and their respective process controls. The risk map permits their monitoring, prioritization and proposed treatment according to established governance. Likewise carries out an active cybersecurity and fraud prevention management, aligned with the best international practices.

The business continuity management system enables the establishing, implementing, operating, monitoring, reviewing, maintaining and improving of business continuity based on best practices and regulatory requirements. The Group implements recovery strategies for the resources that support important products and services of the organization, which will be periodically tested to measure the effectiveness of the strategy.

In the management of operational risk, cybersecurity, fraud prevention and business continuity, corporate guidelines are used, and methodologies and best practices are shared among the Group's companies.

The management of information security is carried out through a systemic process, documented and known by the entire organization under the best practices and regulatory requirements. The Group designs and develops the guidelines described in the policy and procedures to have strategies for availability, privacy and integrity of the information assets of the organization.

Finally, it is incorporated as a mechanism of recovery in front of the materialization of operational risks, the management of the Transfer of Non-Financial Risks, mainly through Insurance Policies contracted individually or corporately in the local and international market, which cover losses due to fraud, civil and professional liability, cyber risks, damage to physical assets, among others. The insurance design is in accordance with the Group's main operating risks, the coverage needs of key areas and the organization's risk appetite, constantly seeking efficiencies in the cost of policies, working together with the insurers that make up the Group and the most important insurance/reinsurance brokers in the international market.

## 34.5 Cybersecurity -

Credicorp focuses on the most efficient strategies to reduce exposure to cybersecurity risk and, thereby, meet the Group's risk appetite. Credicorp applies different levels of controls to the different exposed areas and companies. To this end, it maintains an investment program, which allows it to have the technologies and processes necessary to keep the Group's operations and assets safe.

As part of cybersecurity management, the Group has lines of action to mitigate risks, as well as implementation priorities and improvements that take into account the different realities of the companies. These lines of action include:

- The maturity of cybersecurity according to FFIEC, allow for adjustments to cybersecurity controls for each of the Group's companies.

- Strategies, policies, and guidelines standardizing the levels of compliance with cybersecurity controls in each of the Group's companies.
- An awareness program, including constant training that generates a culture of cybersecurity consciousness in all the Group's companies.
- Cybersecurity indicators that show the effectiveness of the processes through periodic evaluations carried out in each of the Group's companies.
- Governance of suppliers, which ensures the deployment of the Group's policies to third parties.
- The implementation of security technologies, which seeks to cover risks according to the threat trend and the risk profile of each company in the Group.
- Tabletop tests and breach simulations that help to identify and fix gaps in the incident response protocols, as well as train the incident response Group's teams.
- Data Privacy Strategy, including several layers of data protection, according to the stages of the data lifecycle, deployment of a data loss prevention program and improvement of data recovery capabilities.
- Software life cycle assurance strategy and deployment of security practices and controls to improve and monitor compliance of cybersecurity policies, as well as a threat modeling process through the acquisition and deployment of a specialized platform for this purpose.
- Identity and Access Assurance, to manage and protect digital identities and ensure the management of authentication and authorization access of users and devices to the organization's resources.
- Assurance of our remote connections with third parties and optimization of security controls for network access for employees in home office
- Part of the continuous improvement in risk management is to identify opportunities for improvement. For this purpose, the cybersecurity risk taxonomy was deployed, so that technical language can be expressed in business terms and be understandable at all levels. In addition, BCP implemented the Factor Analysis of Information Risk (FAIR) methodology to quantify and prioritize cybersecurity risks, which will also be implemented in other companies of the Group during 2022.

#### 34.6 Corporate Security and Cybercrime -

The Group implements policies, procedures and actions that safeguard employees, customers and assets of the organization. In addition, it protects the institution against incidents of fraud, security and reputational risk. It also fosters a culture of prevention, allowing it to minimize the risks of fraud and security. Finally, it has established a solid relationship with stakeholders and Financial Institutions in the region.

Management has in place an integral security scheme called MISB for Credicorp (Comprehensive Banking Security Model), which includes variables for prevention, detection, response and recovery. The MISB has six strategic axes: training for internal and external clients, fraud and security risk assessments, business support through early alerts, continuous monitoring and reporting, specialized forensic investigation, and cyber-intelligence. In addition, Management has a second line of defense focused on generating a comprehensive vision of fraud and security risks. This includes state-of-the-art technological tools, as well as advanced analysis models for risk profiling for the detection of internal fraud and tools to detect anomalous behaviors.

This model and strategy are shared with different banks that belong to the Peruvian Banking Association to establish synergies and a robust control scheme at the financial institution level.

#### 34.7 Model Risk -

The Group uses models for different purposes such as credit admission, capital calculation, behavior, provisions, market risk, liquidity, among others.

Model risk is defined as the probability of loss resulting from decisions (credit, market, among others) based on the use of poorly designed and/or poorly implemented models. The sources that generate this risk are mainly: deficiencies in data, errors in the model (from design to implementation), use of the model.

The management of model risk is proportional to the importance of each model. In this sense, a concept of "tiering" (measurement system that orders the models depending to the importance according to the impact on the business) is defined as the main attribute to synthesize the level of importance or relevance of a model, from which is determined the intensity of the model risk management processes to be followed.

Model risk management is structured around a set of processes known as the life cycle of the model. The definition of phases of the life cycle of the model in the Group is detailed below: Identification, Planning, Development, Internal Validation, Approval, Implementation and use, and Monitoring and control.

### 34.8 Risk of the insurance activity -

The main risk the Group faces under insurance contracts is that the real cost of claims and payments or the timing of them, differ from expectations. This is influenced by the frequency of claims, the severity of the claims, the real benefits paid and the subsequent development of long-term claims. Therefore, the objective of the Group is to ensure that enough reserves are available to cover these liabilities

The aforementioned risk exposure is mitigated by diversification across a large portfolio of insurance contracts and by having different lines of business. Risks are also mitigated by a careful selection and implementation of strategic underwriting guidelines, as well as the use of reinsurance agreements. The Group's placement of reinsurance is diversified so that it is neither dependent on a single reinsurer nor are the operations of the Group substantially dependent upon any single reinsurance contract.

### Life insurance contracts -

The main risks to which the Group is exposed, with respect to these contracts, are: mortality, morbidity, longevity, return and flow of investments, losses derived from the policies due to the fact that the expense incurred is greater than expected and the decision of the insured; which, in normal situations, do not vary significantly in relation to the location of the risk insured by the Group, type of risk or the industry.

The Group's strategy is to ensure that risks are well diversified in terms of the type of risk and level of benefits of the policyholders. This is achieved through the diversification of insurable risks, an adequate underwriting process, the periodic analysis of the experiences and real demands of the products, as well as a detailed follow-up of the claims and pricing procedures. Commitment limits have been established to enforce appropriate risk selection criteria. For example, the Group has the right not to renew temporary policies and has the right to refuse payment of fraudulent claims.

For insurance contracts when death or disability is the insurable risk, the significant factors that could increase the frequency of claims are epidemics, widespread lifestyle changes and natural disasters, causing more claims than expected.

For retirement, disability and survivor pension contracts, the most important factor is continuous improvement in medical science and in social conditions that increase longevity.

Management has carried out a sensitivity analysis of the estimates of technical reserves.

Since the start of the COVID-19 pandemic in March 2020 the mortality of the portfolio of policyholders of life businesses increased significantly. The main businesses affected have been the Pension Insurance (SISCO contracts) and the Credit Life or Credit Life Insurance, due to the number of insured in each business (more than 2.5 million people in each case). Other lines of businesses impacted are Individual Life, voluntary Group Life and mandatory Group Life, but with reduced impact.

In these businesses, the reserve for pending claims was increased as well as the reserve for incurred and unreported claims (IBNR) due to the increase in deaths and the delay in reporting claims. Since March 2020, the month of the start of the national emergency, the size of the portfolios, the claims reported and the reserves necessary to cover the expected excess mortality (expected deaths above the average pre-pandemic deaths) have been continuously monitored. Likewise, in 2020 two matching processes were carried out with the National Registry of Identification and Civil Status ("RENIEC" by its acronym in Spanish) to determine the number of deaths not yet reported from specific portfolios and similar processes are being evaluated during 2021. Additionally, conservative criteria have been applied in estimating claims reserves taking into account the uncertainty involved. However, during the first quarter of 2022, a lower loss rate was reported in the life business, mainly in the lines of Pension Insurance, Credit Life Insurance and Group Life; consequently, a reduction in life claims reserves.

On the other hand, pension businesses also registered more deceased rentiers since the beginning of the pandemic, which has led to a greater release of mathematical reserves for this concept compared to previous years.

Non-life insurance contracts (general insurance and healthcare) -

The Group mainly issues the following types of non-life general insurance contracts: automobile, technical branches, business and healthcare insurances. Healthcare contracts provide medical expense cover to policyholders. Risks under non-life insurance policies usually cover 12 months.

For general insurance contracts the most significant risks arise from climate changes, natural disasters and other type of damages. For healthcare contracts the most significant risks arise from lifestyle changes, epidemics and medical science and technology improvements.

Most of these risks do not vary significantly in relation to the location of the risk insured by the Group, type of risk insured or industry.

The above risk exposures are mitigated by diversification across a large portfolio of insurance contracts and by having different lines of business. The sensitivity of risk is improved by careful selection and implementation of underwriting strategies of insurance contracts, which are designed to ensure that risks are diversified in terms of type of risks and level of insured benefits. This is achieved, in various cases, through diversification across industry sectors and geographic location.

Furthermore, strict claim review policies to assess all new and ongoing claims and in process of settlement, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims are all policies and procedures put in place to reduce the Group's risk exposure. Insurance contracts also entitle the Group to pursue third parties for payment of some or all costs. Also, the Group actively manages and promptly pursues claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Group.

The Group has also limited its exposure by imposing maximum claim amounts on certain contracts as well as the use of reinsurance arrangements in order to limit its exposure to catastrophic events.

During the emergency period due to the periods of social confinement decreed in the country as well as the immobilization and paralysis of activities during the first months of the pandemic, the claims of the general insurance businesses were reduced, mainly in the branches of vehicle insurance, Mandatory Traffic Accident Insurance ("SOAT" by its acronym in Spanish) and Fire. Since the last months of 2020, with the gradual reactivation of activities, claims have gradually recovered their usual level.

In the Medical Assistance branch, the pandemic had two simultaneous effects on the accident rate: an increase in outpatient care and hospitalizations (normal and in intensive care unit) due to COVID-19 cases and a decrease in care and hospitalizations for other ailments. For this business, the reserves for pending claims, as well as the reserves for incurred and unreported claims (IBNR) are being continuously monitored and have been estimated with prudent criteria due to the variability and uncertainty of the frequency and cost of cases and the greater delay in the claim report by health centers, whose care during the pandemic is focused on patient care.

## 34.9 Capital management -

The Group maintains an actively managed capital base to cover risks inherent in its business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the SBS, the supervising authority of its major subsidiaries and for consolidation purposes. Furthermore, capital management responds to market expectations in relation to the solvency of the Group and to support the growth of the businesses considered in the strategic planning. In this way, the capital maintained by the Group enables it to assume unexpected losses in normal conditions and conditions of severe stress.

The Group's objectives when managing capital are: (i) to comply with the capital requirements set by the regulators of the markets where the entities within the Group operate; (ii) to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and (iii) to maintain a strong capital base to support the development of its business, in line with the limits and tolerances established in the declaration of Risk Appetite.

As of March 31, 2022 and December 31, 2021, the regulatory capital for the Subsidiaries engaged in financial and insurance activities amounted to approximately S/29,253.9 million and S/29,741.6 million, respectively. The regulatory capital has been determined in accordance with SBS regulations in force as of said dates. Under the SBS regulations, the Group's regulatory capital exceeds by approximately S/9,877.1 million the minimum regulatory capital required as of March 31, 2022 (approximately S/10,294.3 million as of December 31, 2021)..

# 34.10 Fair values -

# a) Financial instruments recorded at fair value and fair value hierarchy –

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorized. The amounts are based on the values recognized in the interim condensed consolidated statement of financial position:

		As of March 31, 2022			As of December 31, 2021

Financial instruments included in the Level 1 category are those that are measured on the basis of quotations obtained in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Financial instruments included in the Level 2 category are those that are measured on the basis of observable market factors. This category includes instruments valued using: quoted prices for similar instruments, either in active or less active markets and other valuation techniques (models) where all significant inputs are directly or indirectly observable based on market data.

Following is a description of how fair value is determined for the main Group's financial instruments where valuation techniques were used with inputs based on market data which incorporate Credicorp's estimates on the assumptions that market participants would use for measuring these financial instruments:

Valuation of derivative financial instruments -

Interest rate swaps, currency swaps and forward exchange contracts are measured by using valuation techniques where inputs are based on market data. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs, including the credit quality of counterparties, spot exchange rates, forward rates and interest rate curves. Options are valued using well-known, widely accepted valuation models.

A credit valuation adjustment (CVA) is applied to the "Over-The-Counter" derivative exposures to take into account the counterparty's risk of default when measuring the fair value of the derivative. CVA is the mark-to market cost of protection required to hedge credit risk from counterparties in this type of derivatives portfolio. CVA is calculated by multiplying the probability of default (PD), the loss given default (LGD) and the expected exposure (EE) at the time of default.

A debit valuation adjustment (DVA) is applied to include the Group's own credit risk in the fair value of derivatives (that is the risk that the Group might default on its contractual obligations), using the same methodology as for CVA.

As of March 31, 2022, the balance of receivables and payables corresponding to derivatives amounted to S/1,690.5 million and S/1,726.5 million respectively, See Note 13(c), generating DVA and CVA adjustments for approximately S/7.5 million and S/12.1 million respectively. The net impact of both items in the consolidated statement of income amounted to S/5.0 million of loss. As of December 31, 2021, the balance of receivables and payables corresponding to derivatives amounted to S/1,661.6 million and S/1,524.8 million, respectively, See Note 13(c), generating DVA and CVA adjustments for approximately S/7.8 million and S/17.3 million, respectively. Also, the net impact of both items in the consolidated statement of income amounted to S/0.3 million.

 Valuation of debt securities classified in the category "at fair value through other comprehensive income" and included in level 2 -

Valuation of certificates of deposit BCRP, corporate, leasing, subordinated bonds and Government treasury bonds are measured calculating their Net Present Values (NPV) through discounted cash flows, using appropriate and relevant zero coupon rate curves to discount cash flows in the respective currency and considering observable current market transactions.

Certificates of deposit BCRP (CD BCRP) are securities issued at a discount in order to regulate the liquidity of the financial system. They are placed mainly through public auction or direct placement, are freely negotiable by their holders in the Peruvian secondary market and may be used as collateral in Repurchase Agreement Transactions of Securities with the BCRP.

Other debt instruments are measured using valuation techniques based on assumptions supported by prices from observable current market transactions, obtained via pricing services. Nevertheless, when prices have not been determined in an active market, fair values are based on broker quotes and assets that are valued using models whereby the majority of assumptions are market observable.

- Valuation of financial instruments included in level 3 -

These are measured using valuation techniques (internal models), based on assumptions that are not supported by transaction prices observable in the market for the same instrument, nor based on available market data.

In this regard, no significant differences were noted between the estimated fair values and the respective carrying amounts.

As of March 31, 2022 and December 31, 2021, the net unrealized loss of Level 3 financial instruments amounted to S/0.1 million and S/0.7 million, respectively. At said dates, changes in the carrying amount of Level 3 financial instruments have not been significant since there were no purchases, issuances, settlements or any other significant movements or transfers from level 3 to Level 1 or Level 2 or vice versa.

# b) Financial instruments not measured at fair value -

We present below the disclosure of the comparison between the carrying amounts and fair values of the financial instruments, which are not measured at fair value, presented in the interim condensed consolidated statement of financial position by level of the fair value hierarchy:

	As of March 31, 2022					As of December 31, 2021					
	Level 1	Level 2	Level 3	Fair value	Book value	Level 1	Level 2	Level 3	Fair value	Book value	
	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	S/(000)	
Assets											
Cash and due from banks	-	36,312,029		36,312,029	36,312,029	-	39,320,740		- 39,320,740	39,320,740

Bond and notes issued	-	16,294,575		- 16,294,575	16,044,671	_	17,344,990		- 17,344,990	17,078,829	
Other liabilities	<del>_</del> =	3,846,576		3,846,576	3,846,576		3,833,434		3,833,434	3,833,434	
Total		195,578,163		195,578,163	195,121,806		204,095,605		204,095,605	202,131,460	

The methodologies and assumptions used by the Group to determine fair values depend on the terms and risk characteristics of the various financial instruments and include the following:

- (i) Long-term fixed-rate and variable-rate loans are evaluated by the Group based on parameters such as interest rates, specific country risk factors, and individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the incurred losses of these loans. As of March 31, 2022, and December 31, 2021, the carrying amounts of loans, net of allowances, were not materially different from their calculated fair values.
- (ii) Assets for which fair values approximate their carrying value For financial assets and financial liabilities that are liquid or have a short-term maturity (less than three months) it is assumed that the carrying amounts approximate to their fair values. This three-month is also applied to demand deposits, savings accounts without a specific maturity and variable rate financial instruments.
- (iii) Fixed rate financial instruments The fair value of fixed rate financial assets and liabilities carried at amortized cost are estimated by comparing market interest rates when they were first recognized with current market rates offered for similar financial instruments. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing market interest rates for financial instruments with similar credit risk and maturity. For quoted debt issued the fair values are calculated based on quoted market prices. When quoted market prices are not available, a discounted cash flow model is used based on a current interest rate yield curve appropriate for the remaining term to maturity.

## 34.11 Fiduciary activities, management of funds and pension funds -

The Group provides custody, trustee, investment management and advisory services to third parties; therefore, the Group makes allocations and purchase and sale decisions in relation to a wide range of financial instruments. Assets that are held in a fiduciary capacity are not included in these interim condensed consolidated financial statements. These services give rise to the risk that the Group will be accused of mismanagement or under-performance.

As of March 31, 2022 and December 31, 2021, the value of the net assets under administration off the balance sheet (in millions of soles) is as follows:

	As of March 31, 2022	As of December 31, 2021
Pension funds	39,376	40,024
Investment funds and mutual funds	53,035	53,365
Equity managed	29,752	28,768
Bank trusts	5,225	5,395
Total	127,388	127,552

### 35 COMMITMENTS AND CONTINGENCIES

Legal claim contingencies

## i) Madoff Trustee Litigation -

In September 2011, the Trustee for the liquidation of Bernard L. Madoff Investment Securities LLC (BLMIS) and the substantively consolidated estate of Bernard L. Madoff (the Madoff Trustee) filed a complaint (the Madoff Complaint) against Credicorp's subsidiary ASB (now ASB Bank Corp.) in the U.S. Bankruptcy Court for the Southern District of New York (the Bankruptcy Court). The Madoff Complaint seeks recovery of approximately US\$120.0 million in principal amount, which is alleged to be equal to the amount of redemptions between the end of 2004 and the beginning of 2005 of ASB-managed Atlantic U.S. Blue Chip Fund assets invested in Fairfield Sentry Limited (Fairfield Sentry), together with fees, costs, interest and expenses. The Madoff Complaint seeks the recovery of these redemptions from ASB Bank Corp. as "subsequent transfers" or "avoided transfers" from BLMIS to Fairfield Sentry, which Fairfield Sentry in turn subsequently transferred to ASB Bank Corp. The Madoff Trustee has filed similar "claw back" actions against numerous other alleged "subsequent transferees" that invested in Fairfield Sentry and its sister entities, which, in turn, invested in and redeemed funds from BLMIS.

There has been significant briefing on issues related to these Madoff Trustee actions, and these cases have been pending for many years. In November 2016, the Bankruptcy Court issued a Memorandum Decision Regarding Claims to Recover Foreign Subsequent Transfers (the Memorandum Decision) holding that the recovery of certain subsequent foreign transfers is barred under the doctrine of comity and/or extraterritoriality, and dismissed the claims brought by the Madoff Trustee against a number of parties, including ASB Bank Corp. In March 2017, the Madoff Trustee filed an appeal (the Appeal) of the Memorandum Decision to the United States Court of Appeals for the Second Circuit, which reversed the Dismissal Order and remanded the matter to the Bankruptcy Court (the Second Circuit Opinion). In April 2019, the defendant-appellees, including ASB Bank Corp., filed, and the Second Circuit granted, a motion to stay the issuance of the mandate pending the filing of a petition for a writ of certiorari in the United States Supreme Court. The petition for a writ of certiorari was filed in the United States Supreme Court in August 2019. On or about June 1,2020, the United States Supreme Court denied the petition for a writ of certiorari. Following the denial of the petition for writ of certiorari, the judgment for dismissal by the Bankruptcy Court was vacated and the matter was remanded back to the Bankruptcy Court. The case now remains pending in the Bankruptcy Court. On March 25,2022, ASB Bank Corp. filed a Motion to Dismiss the Complaint. While management believes that ASB has defenses against the Madoff Trustee's claims and intends to defend against any action by the Madoff Trustee, in view of recent judicial decisions in cases not involving ASB, certain defenses are no longer available. In this context, Credicorp has constituted a provision that management considers reasonable with the information available today.

## ii) Fairfield Litigation -

In April 2012, Fairfield Sentry (In Liquidation) and its representative, Kenneth Krys (the Fairfield Liquidator), filed a complaint (the Fairfield Complaint) against ASB (now ASB Bank Corp.) in the Bankruptcy Court (the Fairfield v. ASB Adversary Proceeding). The Fairfield Complaint seeks to recover US\$115.2 million in principal amount from ASB Bank Corp., representing the amount of ASB's Bank Corp. redemptions of certain investments in Fairfield Sentry, together with fees, costs, interest and expenses. These are essentially the same funds that the Madoff Trustee seeks to recover in the Madoff Trustee litigation as described above. After the Fairfield Complaint was filed, the Bankruptcy Court procedurally consolidated the Fairfield V. ASB Adversary Proceeding with other adversary actions brought by the Fairfield Liquidator against former investors in Fairfield Sentry.

Similar to the Madoff Trustee litigation described above, the Fairfield v. ASB Adversary Proceeding and related adversary actions have been pending for many years. In October 2016, the Fairfield Liquidator filed a Motion for Leave to Amend (the Motion for Leave) various complaints, including the Fairfield Complaint. Certain defendants, including ASB Bank Corp., filed a motion to dismiss (the Motion to Dismiss) and a consolidated memorandum of law (i) in opposition to the Motion for Leave and (ii) in support of the Motion to Dismiss. In December 2018, the Bankruptcy Court entered a memorandum decision granting in part and denying in part the Motion to Dismiss and the Motion for Leave (the Memorandum Decision). In March 2019, the Fairfield Liquidator submitted a form of a stipulated order dismissing the adversary proceeding against ASB Bank Corp. (the Dismissal Order), as directed by the Bankruptcy Court, but filed notices of appeal, including of the dismissal of the claims asserted against ASB Bank Corp. and other defendants, in May 2019. The appeal remains pending.

Management believes that ASB Bank Corp. has defenses against the Fairfield Liquidator's claims alleged in the Amended Complaint and the Fairfield Liquidator's appeal.

#### iii) Government Investigations -

The former Chairman and the current Vice Chairman of the Board of Directors of Credicorp, in their respective capacities as Chairman of the Board and as a Director of BCP Stand-alone, were summoned as witnesses by Peruvian prosecutors, along with 26 other Peruvian business leaders, to testify in connection with a judicial investigation that is being carried out regarding contributions made to the electoral campaign of a political party in the 2011 Peruvian presidential elections. Our former Chairman testified on November 18, 2019, and our Vice Chairman testified on December 9, 2019. The former Chairman informed prosecutors that in 2010 and 2011 Credicorp made donations totaling US\$3.65 million to Fuerza Popular 2011 campaign (in total amounts of US\$1.7 million in 2010 and US\$1.95 million in 2011). These contributions were made in coordination with the General Manager of Credicorp at that time. While the amount of these contributions exceeded the limits then permitted under Peruvian electoral law, the law in place at that time provided no sanction for contributors, and instead only for the recipient of the campaign contribution.

The former Chairman also informed prosecutors that in 2016, three subsidiaries of Credicorp (BCP Stand-alone, Mibanco and Grupo Pacifico) made donations totaling S/711,000 (approximately US\$200,000) to the Peruanos Por el Kambio campaign. These contributions were made in compliance both with Peruvian electoral law and with Credicorp's own political contributions guidelines, adopted in 2015. These guidelines provided details on the procedures for obtaining approval for contributions and outlined the specific required conditions for transparent contributions.

The Peruvian Superintendencia del Mercado de Valores ('SMV' for its Spanish acronym) has initiated a sanctioning process against Credicorp, for failing to disclose to the market, in due course, the political campaign contributions in the years 2011 and 2016. The SMV also has initiated a sanctioning process against three subsidiaries of Credicorp (BCP Stand-alone, Mibanco and Grupo Pacifico), for failing to disclose to the market, in due course, the political campaign contributions made in connection with the 2016 presidential elections. The SMV has recently notified Credicorp, BCP, Mibanco and Grupo Pacifico with first instance Resolutions on these proceedings. The mentioned Resolutions imposed pecuniary sanctions (fines) on Credicorp and the three subsidiaries as a consequence of these sanctioning processes. Credicorp, BCP, Mibanco and Grupo Pacifico have appealed the Resolutions.

On December 8, 2021, Credicorp informed that the Peruvian SMV was notified of the resolution issued by the Provisional Superior Chamber Specialized in Administrative Litigation of the Superior Court of Justice of Lima (the "Court"), pursuant to which the Court has admitted for consideration Credicorp's contentious-administrative claim challenging the SMV's resolution (by negative administrative silence), with reference to the appeal filed by Credicorp mentioned in the prior paragraph.

Under the Resolution, the SMV resolved to sanction Credicorp (i) with a fine of 300 Tax Units (Unidades Impositivas Tributarias or UITs by its acronym in Spanish) approximately US\$270,000 for, allegedly, having infringed (categorized as "very serious", "muy grave" in Spanish) subsection 1.6, numeral 1 of Annex 1 of the Sanctions Regulation, approved by CONASEV Resolution N°055-2001-EF / 94.10, effective as from 2011; and (ii) with a fine of 210 UITs approximately US\$207,375 for, allegedly, having violated (categorized as "very serious", "muy grave" in Spanish) subsection 1.5, numeral 1 of Annex 1 of the Sanctions Regulation, approved by CONASEV Resolution N°055-2001-EF / 94.10 and modified by Resolution N° 006-2012-SMV / 01, effective as from 2016. The charges made by the SMV against Credicorp were that the company had affected the transparency of the stock market by not having disclosed relevant information to the market regarding Credicorp's cash contributions to the political party Fuerza Popular during the 2011 Peruvian presidential campaign (first charge) and that the company had affected the transparency of the stock market by not having disclosed relevant information to the market regarding Credicorp's agreement to make contributions to the political party Peruanos por el Kambio during the 2016 Peruvian presidential campaign (second charge).

Because Credicorp was neither in agreement with the categorization of the facts nor with the sanctions imposed, Credicorp filed an appeal challenging the Resolution. Subsequently, after the expiration of the term to resolve in the appeal (second administrative instance), Credicorp asserted its right to negative administrative silence and to resort to the Judiciary. Notwithstanding, Credicorp proceeded to pay the fines imposed by the SMV, in compliance with Peruvian law.

Thus, since Credicorp's contentious-administrative claim filed was admitted for consideration by the Court, the administrative procedure has terminated with respect to Credicorp and the matter is now subject to the decision of the Judiciary.

On March 4, 2022, Grupo Pacifico informed that the Peruvian SMV was notified of the resolution issued by the Superior Chamber Specialized in Administrative Litigation of the Superior Court of Justice of Lima (the "Court"), pursuant to which the Court has admitted for consideration Grupo Pacifico's contentious-administrative claim challenging the SMV's resolution (by negative administrative silence), with reference to the appeal filed by Grupo Pacifico mentioned above. Thus, since Grupo Pacifico's mentioned claim was admitted for consideration by the Court, the administrative procedure has terminated with respect to Grupo Pacifico, and the matter is now subject to the decision of the Judiciary.

Regarding BCP and, Mibanco the administrative proceedings are still in the SMV.

Credicorp believes that neither the contributions disclosed by our former Chairman and the current Vice Chairman in 2019 nor the related SMV sanctioning processes pose a significant risk of material liability to the Company. Furthermore, Credicorp does not believe that either of the contributions will have material effect on the Company's business, financial position or profitability.

On November 11, 2021, Credicorp disclosed that its incoming CEO, Mr. Gianfranco Ferrari de las Casas, informed the company that he was notified of a Prosecutor's Decision issued by the Corporate Supraprovincial Prosecutor's Office Specialized in Officer Corruption Offenses Special Team - Fourth Court Division ("Fiscalía Supraprovincial Corporativa Especializada en Delitos de Corrupción de Funcionarios Equipo Especial - Cuarto Despacho", for its name in Spanish). Through such notice, Mr. Ferrari was informed that he has been included in the preparatory investigation carried out against Mr. Yehude Simon M. and an additional sixty-five (65) individuals on the grounds of, in his particular case, alleged primary complicity in the alleged crime against the public administration, aggravated collusion, incompatible negotiation or improper use of position and criminal organization detrimental to the Peruvian State, in connection with the financial advisory services provided by BCP Stand - alone to the Olmos Project.

Credicorp has reviewed the performance of the officers of Banco de Crédito del Perú in relation to the financial advisory services provided by the Bank in connection with the Olmos Project and has concluded that the facts under investigation do not give rise to any liability of Banco de Crédito del Perú or its officers. Credicorp bases this view on the qualified opinion of external consultants specializing in the matter. Therefore, Credicorp considers that the opening of the aforementioned preparatory investigation will not have any impact on the normal operation of the company, nor will it affect the dedication and performance of its officers in undertaking their regular duties.

#### 36 EVENTS OCURRED AFTER THE REPORT PERIOD

From April 1, 2022 until the date of this report, no significant event of a financial-accounting nature has occurred which affects the interpretation of the interim condensed consolidated financial statements, except for the following:

On April 28, 2022, The Board of Directors has approved the distribution to shareholders of a total effective dividend of S/.1,415,734,755 for a total of 94,382,317 shares, which is equivalent to S/15.0 per share, which will be paid on June 10, 2022, without withholding taxes at source, to shareholders of record on May 20, 2022. The dividend will be paid in U.S. dollar, at the weighted average exchange rate of the professional market registered by the Superintendence of Banking, Insurance and AFPs at the close of operations on June 8, 2022.
