

Credicorp Ltd. : Credicorp acquires a majority stake in IM Trust of Chile as part of its plan to expand its investment banking operations in the region

April 24, 2012

LIMA, PERU, April 24, 2012--Credicorp (NYSE: BAP) .- With the intention of creating a regional investment bank with global reach, and following the acquisition of 51% of Correval -Colombia- a few months ago, Credicorp announced today an agreement in principle with IM Trust of Chile to acquire a majority stake, with the ultimate intention of creating a regional investment bank. Through this partnership, the three leading financial corporations seek to enhance services for their customers at a global level, covering the financial needs of investors and corporations in the fastest growing markets of the region.

To consolidate this regional partnership, Credicorp, through its subsidiary Banco de Crédito BCP- will enter into a transaction valued at approximately 3.5% of Credicorp's net equity that will result in Credicorp holding 60.6% of IM Trust. The transaction is subject to the completion of a due diligence process and the approval of the regulatory authorities in each country. This partnership includes also Correval, where Credicorp is close to the completion of the acquisition of a 51% stake of the financial institution, through a transaction that will materialize in the upcoming days.

The new regional investment banking operation will be controlled by Credicorp and led by a board consisting of representatives of recognized prestige in Peru, Chile and Colombia. In addition, the various companies involved will maintain their existing organizations and their executives will remain in their current roles in each country.

We believe this alliance will cover the financial needs of investors and corporations in the markets with the largest potential in the region, where the combined GDP reached an estimated US\$ 800 billion at the end of 2011. Furthermore, with this project we are consolidating our international expansion plans and establishing an integrated platform of investment banking, which in the three countries will have a total traded volume of US\$ 15.7 billion in equity and US\$ 134.8 billion in fixed income, and will feature over 4,000 high net worth clients. The customers of the three institutions will enjoy the services of an expanded international team of over 900 executives at a regional level, which includes about 40 research analysts providing a specialized analysis of all three markets, as well as a combined corporate finance team of over 60 high level executives, which in 2011 executed a record of 181 transactions for over US\$ 8 billion in value.

About CREDICORP

CREDICORP is the leading financial service group in Peru, and operates primarily in commercial and investment banking through its main subsidiary Banco de Crédito del Perú (BCP), an institution with over 120 year of successful experience in the Peruvian financial market, that holds more than 40% market share in the corporate sector and over 20% in the retail business.
